

Day Opportunities

Day opportunities, also known as day services, provide individuals with the chance to get out and do something during the day, evening or weekends.

Opportunities include:

- social activities
- education, employment and training
- local facilities and housing.

If an individual is interested in taking up a day opportunity, they need to complete a [care and support assessment](#) and be eligible for care services. For more information, please [read the Day Services factsheet](#).

To speak to an advisor or submit an enquiry online please contact our [Customer Service team](#).

Day opportunities are delivered by a wide range of providers in different areas of the county. Individuals can access the [council day opportunities \[Word\]](#) or the independent organisations who are on the [Day Opportunities Framework \[Excel\]](#).

If there are providers who are not on the framework and would like to know more about joining it, please read the new vision and model for day services in the documents below and

email strategic.commissioning@nottscc.gov.uk
