Day Opportunities

Nottinghamshire County Council Day Opportunities provide a variety of opportunities for people to achieve their personalised goals for maintaining and improving independence whilst doing things they enjoy, and provide a break for carers. We recognise that people require different types of support, and some more support than others, depending on their strengths and interests.

Our friendly and skilled teams are experienced at working with adults with a range of disabilities and provide support to older people, those with physical disabilities, learning disabilities, autism and mental health support needs. Our teams are trained in a range of person-centred care delivery including a variety of activities that support wellbeing, positive behaviour support, eating and drinking, and personal care.

We use strength-based approaches to ensure people are involved in making decisions about what they do and how they take part in what is on offer. We focus on individual strengths, choices, and goals. Whether someone needs short-term enabling support or longer-term therapeutic care, we tailor activities to help them achieve their aspirations.

People that have higher levels of support may require a building-based service to support their needs most effectively, but the aspiration remains that everyone should be able to access their communities if they choose to. We work in partnership with a number of local organisations, such as education providers and local sports clubs, to enhance people's experiences of their day opportunity.

Maximising Independence Service

The [Maximising Independence Service \(MIS\)](#) focuses on early resolution, prevention and promoting independence and wellbeing for people, by linking them with other services that are appropriate and useful to their goals and outcomes.

[Notts Help Yourself](#) is a website that provides a wealth of information about care and services in Nottinghamshire.

Finding a day care placement

When considering the day care placement options available to people in receipt of a managed budget, please refer to the [Day Care Opportunities Provider Framework \[Excel\]](#).
