
Ageing Well Care Home Framework

The new AW Care Home Framework went live for new placements on 22 April 2024.

Providers have had six opportunities since Autumn 2021 to join the Framework and a further opportunity will be available during Spring 2026.

Only those providers listed on the spreadsheet below will be able to accept new placements.

Any providers not on the Ageing Well Care Homes Framework will be unable to be awarded a Nottinghamshire County Council contract for individual placements. The Service Placement team therefore will reject any commissioning where an unlisted provider is used.

[Ageing Well Care Home Framework \[Excel\]](#)

The spreadsheet will be updated regularly as providers join or are removed from the Framework.

Where an individual or their representative does not accept an offer of a placement in a Framework home they will be able to enter a private arrangement as a self-funder. Please note, it will not be appropriate in any circumstance to place in a non-framework home by using a direct payment.

All requests for care home placements must go to Brokerage for them to undertake the search and negotiations, assessment colleagues do not need to make contact to care homes prior to sending the request for services however if a person has a preference to live in a particular area this can be recorded on the request.

The only exception to this is in respect of placements that are via a short break allocation or using the NHS Short Breaks budget. In these cases, only Framework providers may be used.

Providers operating under the Framework should provide core elements of care at the [council's banded rates](#).

Where a contract is being considered for an out of area placement, then the costs will be as per the home authority rates, rather than the county council's.

Any queries regarding the operation of the Framework should be directed to Martyn Harris at martyn.harris@nottsc.gov.uk.
