

Home Based Care Amendment – Long Term Increase/Decrease

This process relates to packages with Lead and Additional Providers only - for Spot and DPS providers please follow the existing (Interim) processes.

A **long-term amendment** can only be added to a Review – Community Based Services step.

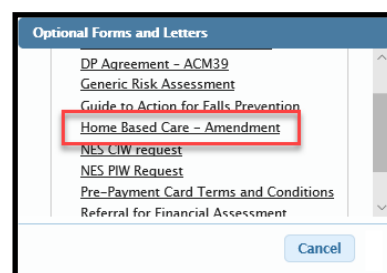

If you do not have a review step open you can either pull forward an existing future review or schedule a review from the start screen.

A **short-term amendment** can also be completed via a “Home Based Care – Request Care Package Amendment”. See separate Quick Reference Guide.
