Home screen overview

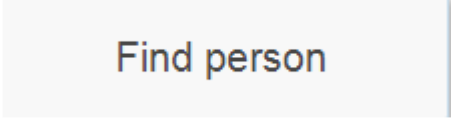

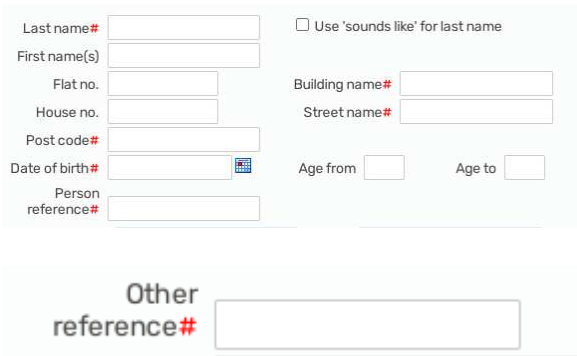

Below is an overview of your home screen

Mosaic Icons

Please note – when you hover, your mouse over a you can see that that icon is/does

 - takes you back to the home screen	 - to close mosaic down	 - in team view	 - show workers available to act for
 - your work view	 - bulk assign	 - view workflow map	 - when in act for mode
 - view all steps	 - save work while in a step	 - to save a step when completed	 - refresh icon within steps
 - outputs current document to PDF	 - managers decision request. Which can be mandatory within some steps	 - forms and letters for extra tabs within steps	 - upload a document into the step and the number of documents within the step. Open documents outside of the step
 - copy icon within steps and case notes	 - takes you back to subjects summary screen	 - to close down the workflow	 - Editable pulled though data
 - Non-editable pulled though data	 - indicates this is a mandatory field within steps	 - guidance within forms	 - delete
 - edit	 - append a case note	 - incoming work	 - incomplete work
 - future work	 - incoming requests	 - case note alerts	 - managers decision requests completed but you still need to close the workflow down
 - scheduled visit	 - search for a person	 - search for an organisation	 - search for works who have access to mosaic
 - to change your mosaic password	 - NCC Guidance and mosaic request forms		

Children's Centres – searching for records	Screen View
SEARCHING FOR RECORDS ➤ From FULL work view, click the FIND PERSON button. OR ➤ In NARROW or CLOSED work view, select FIND PERSON from the PEOPLE menu	 
➤ In the FIND PERSON screen, you can enter the search criteria by which you want to find a person. You can search by one field or a combination of fields but at least one field marked with a # is required.	
There are some recommended techniques for searching but the rule of thumb is LESS IS OFTEN BEST! Even though you can add a person after undertaking your initial search, there is a real danger that without conducting several different searches or searching the system thoroughly, you could potentially create a duplicate record. If you create a duplicate record it may result in important case information for the same person being recorded on two or more separate records. Therefore, if you only undertake one search and conclude that the person is not on the system, you must assume that the original search criteria were not suitable and therefore conduct several further searches using the recommended search techniques below before creating a new person. <u>Recommended search techniques</u> ➤ Search with the last name only ➤ Search with the first 3 letters of the last name ➤ Search with the postcode only ➤ Search with the date of birth only (if known) ➤ Search with the street name ➤ Search with the last name and date of birth ➤ Search with the last name and the first 2 or 3 letters of the first name	

Using a wildcard (% Symbol)

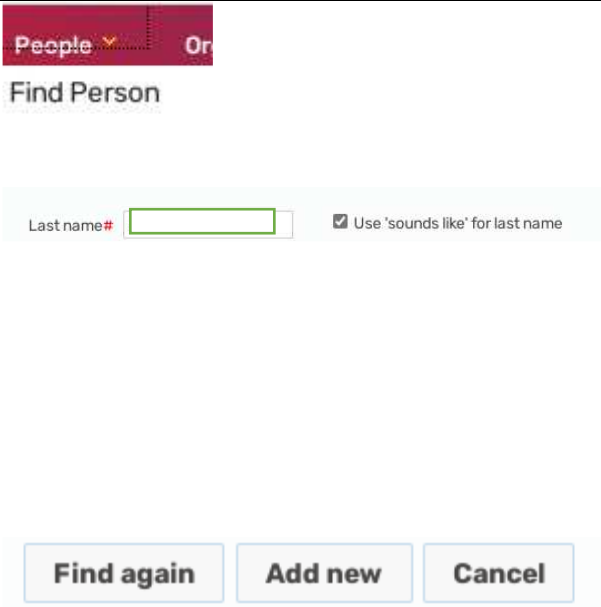

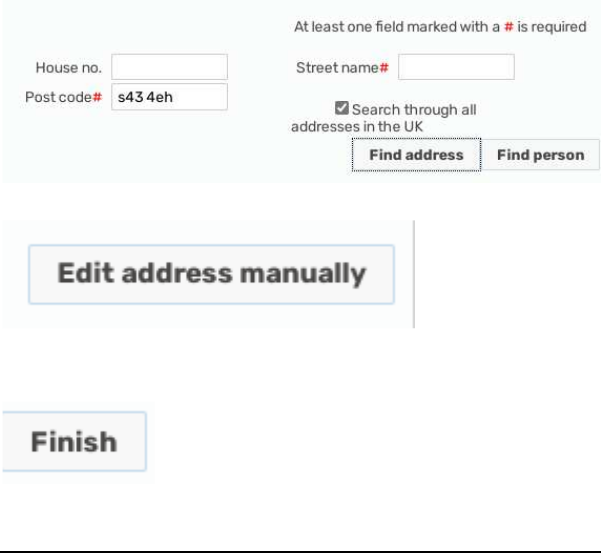

The percentage symbol % can be used to replace characters. For example, if you need to find a person with the first name Kathleen but are unsure as to whether it is spelt Kathleen, Kathy or Cathy, you could try searching %ath the first name field and enter their last name (which in this example is Harrington). This search would find Kathleen Harrington and Matthew Harrington.

Dynamic Filter

If the search results are too long, you can filter the list by using the dynamic filter (which works in a similar way to searching within search results). The dynamic filter (the search field in the image below) looks at all the characters in the name, address and date of birth fields. For example, if you enter 1995 in the dynamic filter (search field below) only Dawn Meed would be listed as her year of birth is 1995.

Searched for: Last name: meed

Children's Centres – adding records to Mosaic	
Action	Screen View
ADDING RECORDS TO MOSAIC <u>BEFORE ADDING A NEW RECORD DO A THOROUGH SEARCH USING PEOPLE AND FIND PERSON</u> ➤ NAME: when searching remember sometimes less information is more <u>TIP</u>: for names that can be spelt numerous ways e.g. STEVENSON –tick the 'Use sounds like' ➤ DOB ➤ ADDRESS When you are confident the record is not on Mosaic: From your search results window click ADD NEW	
➤ Add ALL the relevant details and click Next ➤ <u>Remember to tick 'search through all addresses in the UK' When searching for the address if outside of Nottinghamshire</u> ➤ IF address not found click EDIT manually and enter the address. Remember this adds it to the record but doesn't add it to the database ➤ Complete the rest of this page as appropriate and click Finish You have now added the basic record to MOSAIC	

KEY THINGS TO REMEMBER TO ADD TO YOUR RECORD:

Click on Person Details from the Person Summary Screen

- Telephone numbers / Email address
- Worker Relationships (this is how cases are allocated to you – see guidance on intranet)
- Notes:
 - General: will add a note at the bottom of the person details often used for regularly used telephone numbers e.g. other involved professional
 - Warning: this displays in the top left of the person details screen in red
- Adding Service User Group
- Adding Organisation and identifying record is open to Children's Centres (see page 6 for guidance)

Personal Relationships (see page 7 for guidance)

Person details >	Basic details
Start >	Addresses
Case notes	Telephone numbers /
Documents	E-mail
Events	Classes
Visits	Other names
Education >	Date of death
Health >	Current communication needs
Looked after >	GP
Legal status	Organisational relationships
Offences	Personal relationships
Registrations	Worker relationships
Alerts history	Employment status
Child protection history	References
Financial assessment results	Service user groups
	Notes
	Finance data

Linking organisation relationship:

- Person Details
- Organisation Relationships
- ADD
- Next to Organisation click Find
- In the Name field type 'Childrens Centre' and find
- In the search results select appropriate Children's Centre Cluster
- Click on the down arrow next to Relationship Type: **Select Awaiting CC Allocation**
- The date field will prepopulate with today's date (it can be amended)
- Click Save at the bottom of the page and then OK
- This will then display under the heading Professional and Organisation Relationships on the Personal details of the record

It is important that the cluster is added as an organisation to each record so that the person will pull through into the meeting function to form the agenda for the allocations meeting

Organisation * **Find**

Organisation * **Find**

Relationship Type *

From *

Professional and organisational relationships

Organisational [Change](#)

Awaiting CC Allocation [Childrens Centres - Newark Cluster](#)

Ending organisation relationships

To do this:

- There is a new feature with the update, we now have a change link on the person summary page under professional and organisational relationships
- Professional has its own change link
- Organisational has its own change link
- Click on the pencil next to the organisation you are ending – In this case it will be the cluster
- Add the date of the allocation meeting as the end date
- and select the reason from the drop-down menu

This will remove the organisation link on the person summary page of the record and remove the person from the 'agenda' for future allocation meetings

Once the case has been through the allocations process, the organisation relationship needs to be ended (or the case will continue to populate the agendas in the meeting function)

How to create a worker relationship (allocating cases)

- Search for the child
- Select **Person Details** then **Worker Relationships**
- Select Add
- Click on **Find** and type in the workers name then click **Find again**
- Click on the name of the worker from the search results.
- Select the relationship from the **Relationship Type** drop down menu
- Check the **from date** is correct
- Click **Save**
- Details of the worker will now be displayed in Professional and Organisation Relationships

Professional and organisational relationships

It is important the involved CC Worker is linked under worker relationship as this is how the case is allocated

Person details >	Basic details
Start >	Addresses
Case notes	Telephone numbers /
Documents	E-mail
Events	Classes
Visits	Other names
Education >	Date of death
Health >	Current communication
Looked after >	needs
Legal status	GP
Offences	Organisational
Registrations	relationships
	Personal relationships
	Worker relationships

Last name #

First name #

Relationship type *

How to end a worker relationship (unallocated cases)

- As you can see the change link has appear on the same line as professional
- Click on change and you will see a list of worker relationship past and present.
- Click on the **pencil icon** beside the role you would like to end
- Enter the **end date** and select a reason why the relationship has ended from the drop-down list (usually service no longer required when ending allocation)
- Click on **Save**
- Details of the worker will no longer be displayed in Professional and Organisation Relationships on the Person Summary Page (note this will disappear the day after the end date)

To unallocate the case, the worker relationship needs ending

Professional and organisational relationships

Linking records through personal relationships

Adding Personal Relationships

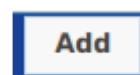

To link records through Personal Relationships the records needs to be added onto mosaic already. (see page 3)

- Through Person Details / change button
- Select Personal relationships
- Click Add
- You should see subject (name of record you are on) Relationship, Relation (person icon with a green plus)
- Click the green plus and this will bring up the find person
- Select the record
- Select the appropriate relationship type from the menu
- Check the relationship context is correct and then select SAVE
- If you need to add parental responsibility or multiple birth siblings etc to the record you do this by clicking on the pencil
- Then select OK

The records are now linked and will display under personal relationships on the personal details of the record

NOTE RECORDS WILL NEED TO BE LINKED THROUGH PERSONAL RELATIONSHIPS TO BE ABLE TO COPY STEPS AND CASE NOTES

Everyone linked to this child will be listed under personal relationships

Addresses on Mosaic

Changing an address on a record (e.g. if person has moved)

- Go to the 'Personal Details' Tab on the front screen / personal details screen and then select 'Addresses' from the drop-down menu / change
- Click on the '**Red Lorry**' symbol.
- You will now see a list of all people linked to this address. The person you are moving will be at the top of list and this will be ticked. If everyone in the household is moving, then tick all. Then confirm selection at the bottom
- Enter some details of the new address details; i.e. Postcode, in the relevant fields.

Note: Always try and search by postcode as this validates the address.

If the address is out of county to tick the "search all addresses in the UK" box – this applies if the address is in Nottingham City.

- Then click the '**Find Address**' button:
This will bring up a list of addresses with the matching criteria for you to choose from, click on the address that is relevant and the address will now be populated in the specific boxes.

Note: If you are adding a new build and the post is invalid, select an address close to that postcode and then edit the address manually, this will ensure that the Local Authority is selected. If you need to add the address manually please add the Local Authority from the drop down list

- Now complete other details that are relevant; i.e. Household structure
- The date of move box will default to today – amend as required. This date will automatically be added to be the end date for the last address.
- Then click '**Finish**'

Cancel

Note:

- **There should only ever be one open address.**
- **Do not use option of residential stay address – this is for ASCHPP use only.**
- **For CFCS cases the primary address and the display address should always be the same.**
- **Do not overwrite addresses as this will delete the address history.**

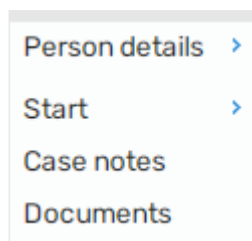

Case Notes

To add a case note

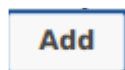

- Click on case notes on the left-hand side of the person's record
- Click **add** (bottom of page)
- Complete the case note but remember:
 1. Make sure that the heading is clear and obvious as to what it contains, don't just replicate what will be in the type of case note
 2. Check the date and time is correct – default is today and now
 3. Tick the box if it is a significant event – this will put it in bold, but it will not add to a chronology
 4. If adding alert recipients – is good practice to add at the bottom of the case note who the alerts were sent to as there is no way of knowing this after the event.

What it means:

- **Save and Continue** – you are continuing to work on the case note. By saving it you should not lose data if you lose your Mosaic session
- **Save and Close** – you don't have time to complete the case note now but it isn't complete. It will save it to the list of all the other case notes, but it will have a pencil symbol at the side. You have 24 hours to complete the case note.
- **Finish** – everything is done, you have nothing more to add.
- However, if after finishing the case note you want to add more you can still **append** more information by clicking on the append symbol. Remember that a case note alert will not be sent until the finish button is pressed.
- Now on case notes you have an extra column called appendices and this list how many times the case note has been appended

A vertical sidebar menu with four items: 'Person details' with a right-pointing chevron, 'Start' with a right-pointing chevron, 'Case notes', and 'Documents'.

▶ [Add alert recipients for this case note?](#)

NOTE: Alerts are sent to recipients when you click 'Finish'

Add recipient

Last name *

At least one field marked with a * is required

First name *

Find **Cancel**

A horizontal row of three buttons: 'Save and continue', 'Save and close', and 'Finish'. The 'Finish' button is highlighted with a blue border.

1

Copying case note to related others

- After finishing the case note, it will appear in the list of case notes.
- Click on the copy case note button and select who else it needs to go to – take care in who you select, click copy.
- It will show as being a “copy” on the record it was copied to.

Case notes added to the wrong person or amendments needed

- Go to the Mosaic support area (Help button on Mosaic), select NCC Guidance then Mosaic requests and complete the appropriate CFCS form.
- If you hover over the link to a case note – it will give the id number.

Searching case Notes

- You can reorder the case notes by clicking on each of the headings. By date is the default.
- If you click on title, it will list case notes alphabetically, case notes starting with a number will display first, followed by words starting with an upper-case letter, then words with a lower-case letter

ACKNOWLEDGING CASE NOTE ALERTS

- Or
- Case note alerts will be shown on the home page
 - In Current work folder and then Alerts Folder
 - Click on the title of the case note
 - View the Case note
 - Close
 - Acknowledge
 - The alert will then disappear

IT IS IMPORTANT TO DO THIS ADMIN TASK REGULARLY SO THAT CASE NOTE ALERTS DO NOT BUILD UP

The screenshot shows the 'Alerts' section of a software interface. At the top, there is a table with columns 'Title', 'Subject', and 'Date'. It contains two entries, both titled 'Case note alert', with subject 'Bart Zzz' and date '02/03/2021'. Below the table, it says 'Showing 1 to 2 of 2 entries'. Underneath is a section for 'Current work' with a refresh icon. This section contains a folder icon and the text 'Alerts (2)'. Below the folder, there are two identical alert items, each with a yellow warning icon, a user profile for 'Bart Zzz (101513567)', and the title 'Case note alert'. At the bottom, there are three buttons: 'OK', 'Acknowledge', and 'View case note'.

Title	Subject	Date

TO UPLOAD DOCUMENT (WITHIN A STEP)

- click on the paperclip on the tool bar
- Attach document
- Browse and select document
- File As – can rename document so it is clear what the document is
- Main Category: select appropriate option
- Click Add

The paper clip will display a number in brackets, this shows how many documents have been uploaded into this step. By clicking on the paperclip, you can see a list of all the documents that have been uploaded

To view the documents, you will need to be in the summary view of the step

The screenshot shows the document upload process. At the top, there is a toolbar with various icons, including a paperclip. Below the toolbar, there is a section for 'Children's Centre Intervention Ci' with a paperclip icon and the text '(0)'. To the right, there is a button 'Attach a document'. Below this, there is a dialog box titled 'Attach document'. The dialog box has a 'Document file' section with a 'File #' field and a 'Choose File' button. Below this, there is a 'Filing details' section with a 'File as*' field, a 'Main Category*' dropdown menu, and a 'Sub-category' dropdown menu. At the bottom right of the dialog box, there are 'Add' and 'Close' buttons. Below the dialog box, there is a section showing the list of uploaded documents. It starts with a paperclip icon and the text '(1)'. Below this, there is a button 'Attach a document'. Below the button, there is a list of documents, including 'corporatelettertemplate.docx'.

UPLOADING DOCUMENTS – IN DOCS SECTION

- From the person summary page click on documents (left hand column)
- Click on the Attachments Tab
- Click Upload (bottom of the screen)
- Search and select file to be uploaded by clicking browse
- File As – this name needs to identify what the document is e.g. Children's Centre
- Main Category – choose appropriate option from pick list
- Click UPLOAD (to upload more than one document) or UPLOAD and CLOSE to upload singular documents
- Click OK and the document will display chronologically in the table of entries for documents
- If a document has a pencil at the end this means it has been uploaded directly into documents/attachments
- If a document has this symbol at the end  this means it has been uploaded into a step. If you click on the symbol it will take you to the step

Sending managers decision requests

- If management approval is required, a request must be sent to the manager to notify them
- Click on the clipboard on the toolbar to send the request to your manager:
- Click on the radio button next to 'request Manager Decision/comment'
- Pass to Worker: either in drop down menu or using find option to search for name
- Then click **ok**
- The request will be sent upon saving and closing the step (or saving and continuing if you are still working in the step)

The step cannot be finished until the manager has completed the request.

This means that the managers request is required, and you will see this when a step has been saved.

 save and close the step

 save and continue working in the step

REQUESTS – APPROVING (MANAGERS)

- Open your own incoming request folder under current work
- Left click on the request symbol 
- Resume Work
- Read through the forms in the steps
- Add any additional information and complete managers section (if applicable)

Then

- Click on the clipboard on the toolbar
- Click in the box displayed in red
- Complete the request and click ok
- select (check if already been selected) the Next actions and click finish  OR save and close

 **Bart Zzz**
