

Mosaic Commissioning Flowchart – Part 1

Please note: This workflow cannot be used to commission Planned Short Breaks or set up PSB allocation

Mosaic Commissioning Flowchart – Part 2

You have all the information required and uploaded to request commissioning (see Part 1)

Has person's need deteriorated?

Yes

No

Do you have a current Assessment or Review Step open in Mosaic?

No

- Is the increase over £75 per week?
- Has your manager asked you to do a small change?
(For lump sums/short term care divide by 52.14 to determine this)

Yes

Yes

No

Use this step to request commissioning

Use a 'Review – Community Based Services (or Review – Long Term Care) Step.

- If a future review is available request it is allocated to you.
- If no future review is available create an unscheduled review

Create a 'Request Care Package Amendment'

Add a 'Care and Support Plan Update' document

Carry out an Assessment/Review of Assessment
Add/refer to 'Care and Support Plan' or 'Review of Care and Support Plan' document

Refer to section 7 'My Support'

Select the appropriate response to the question "How would you like to arrange and manage your support?"

- Is the package (including any existing commission):
- Direct Payment only?
- Part Direct Payment/part managed (paid directly) by NCC?
- Wholly managed (paid directly) by NCC?

If selecting an option that includes a Direct Payment ensure that you complete the additional sections that appear.

Refer to section 8 'My Support'

Refer to section 8 'Costs'

Refer to section 9 'Costs'

- The 'Costs' section should only include services that are ceasing, ongoing or starting.
- Use the dustbin icon to remove any services from 'ongoing costs' that have previously been ceased (these sometimes pull through from older support plans).
- Check through the other sections (Short-term support, one-off payments etc) to ensure there are no hidden ceased services pulling through. Use the dustbin icon to remove these.

To check ongoing costs, cease existing services and add new services, please refer to Part 3

Mosaic Commissioning Flowchart – Part 3

This guide refers to the 'Costs' section of the 'Care and Support Plan' (section 8), 'Review of Care and Support Plan' (section 8) or 'Care and Support Plan Update' (Section 9).

Yes

Do you need to cease any ongoing costs under the 'Ongoing Payments' and 'Regular Transport' headings?

No

For any services that need to be ceased, include the following details:

- Start date
- Breakdown – include name of provider; service/matrix band; frequency of occurrence and the cost currently commissioned.
- How this will be arranged
- The 'Cost per week' must be left blank
- Service cease date must be included

Check (and update if necessary) all current ongoing services and their costs which will continue to be provided, are correctly recorded under the 'Ongoing Payments' and 'Regular Transport' headings, including:

- Start date
- Breakdown – include name of provider; service/matrix band (low, medium, high, complex, dementia etc); frequency of occurrence (which day(s) of the week/session/am/pm/hours per day)
- How this will be arranged (e.g. Day Care, Managed Homecare, Residential, Supported Living etc.)
- Cost per week of the service – as checked from the front screen Part 1.

Yes

Do you need to add any new or altered ongoing costs?

No

For any services that are new or being altered, include the details as listed above for ongoing services, e.g. Start date; Breakdown; How this will be arranged; Cost per week.

N.B. Please refer to Part 5 for guidance on commissioning particular services, for other information or documents that may be required to complete your request, e.g. the CSE Calculator for Supported Living, Day Service Matrix

Yes

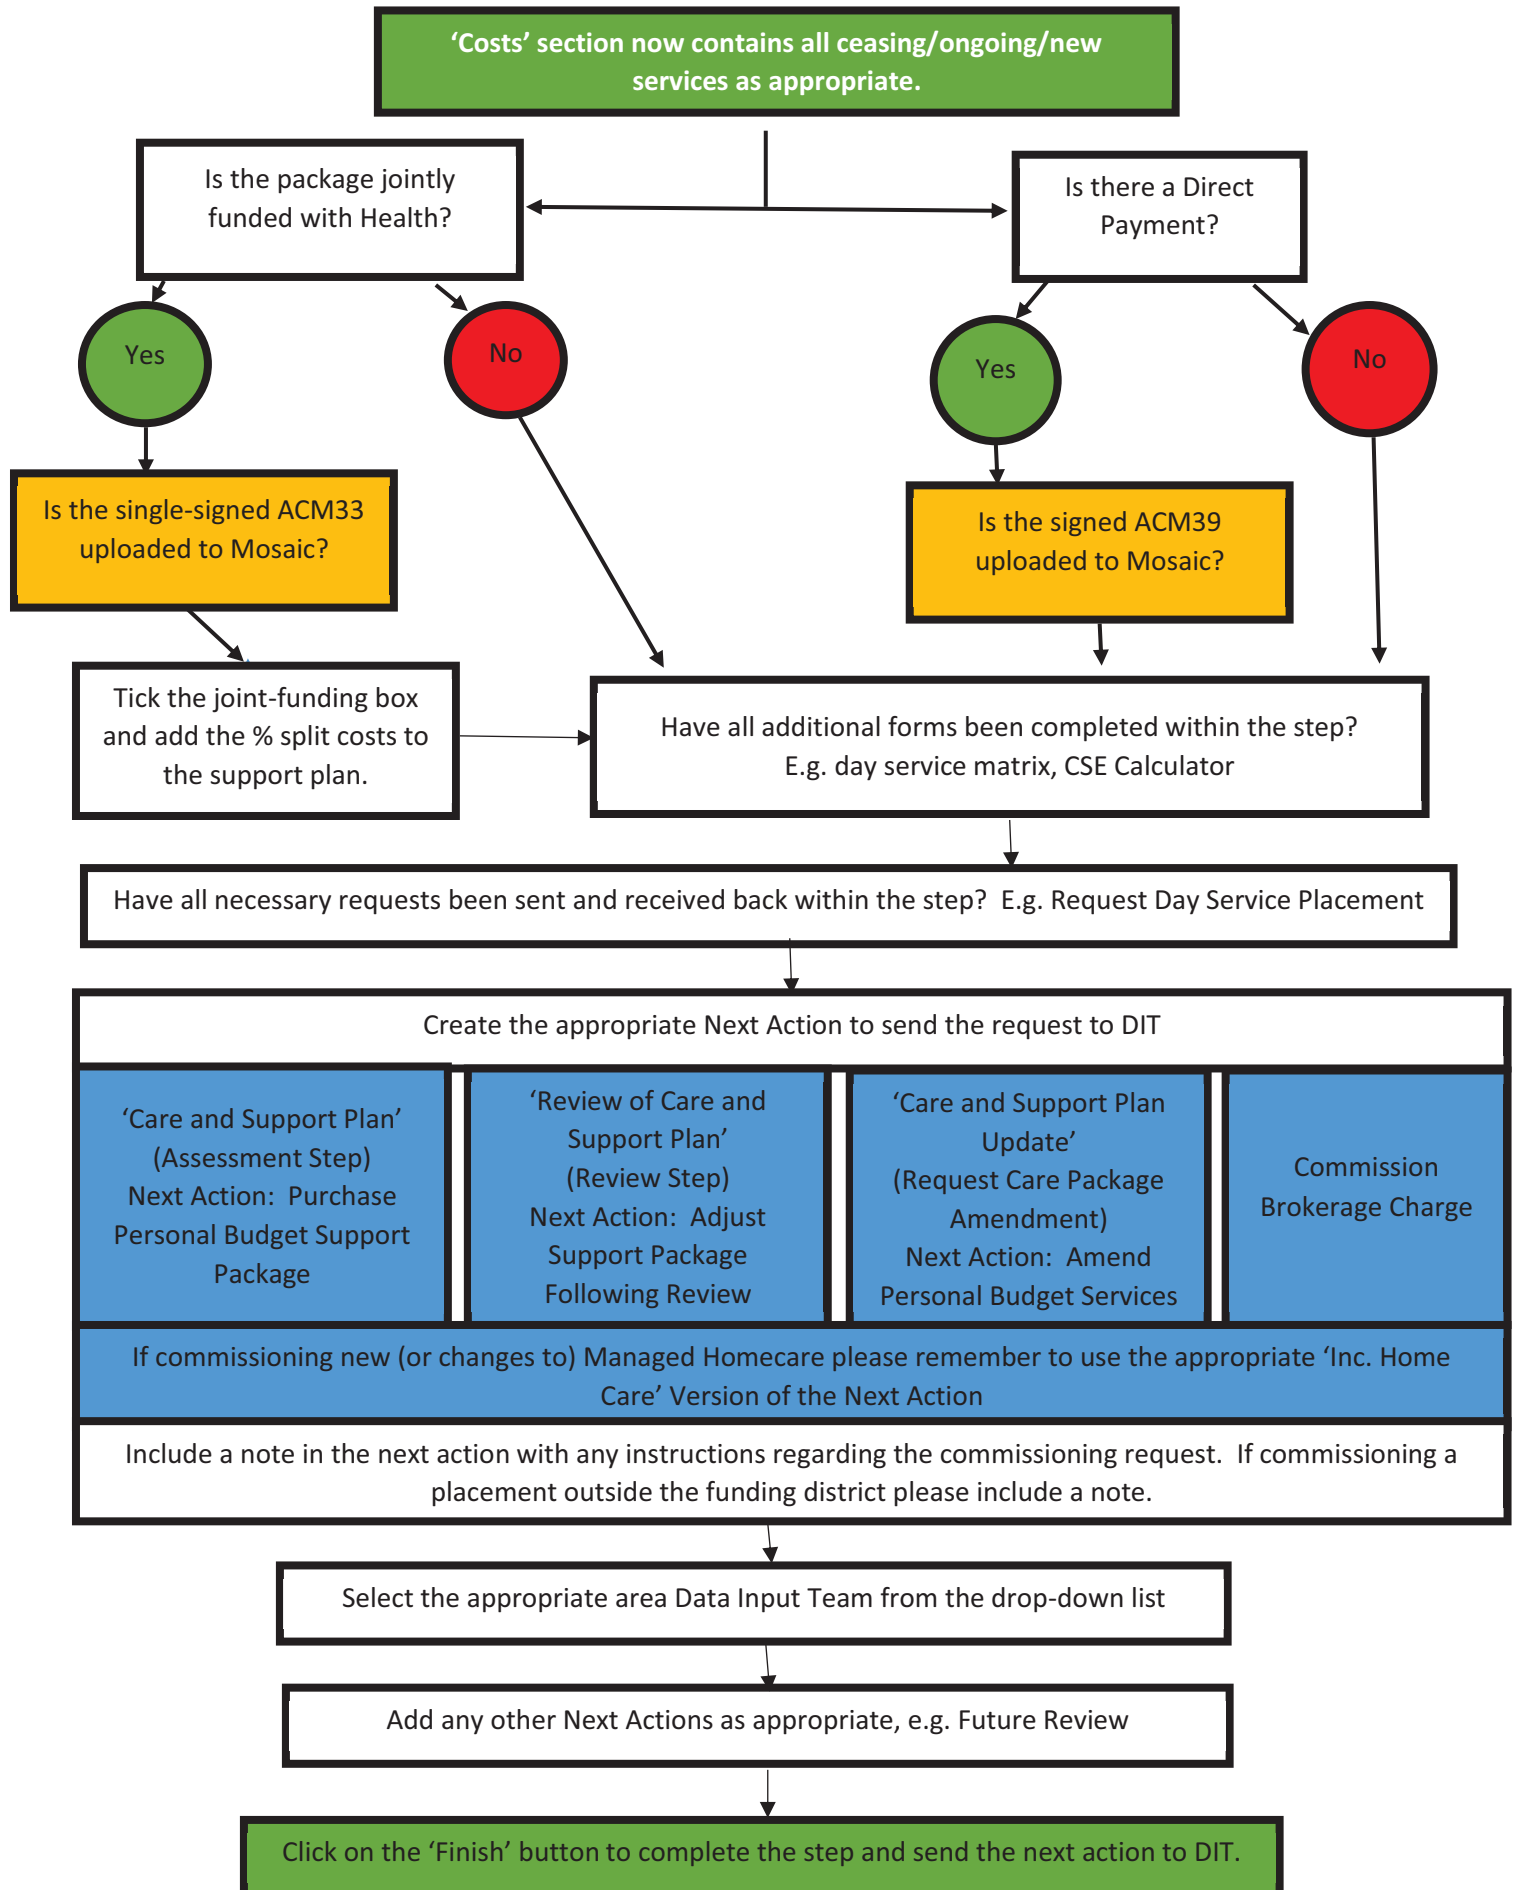

Do you need to add any new short-term or one-off costs?

No

Please refer to Part 5 for guidance on commissioning requirements for different services and circumstances.

Please refer to Part 4 to complete the commissioning request

Mosaic Commissioning Flowchart – Part 4

This section contains guidance for specific service groups and types of service as additional information to Part 3.

Short-Term Support

Use this section to request short-term support. You must include both start and end dates. Residential short-term care requires a third party. In the event of an emergency admission with no clear end date, commission for 2 weeks and make a note review this in your team's duty calendar. This section can also be used for younger adults with term-time attendances at day services, again including start and end dates.

Residential/Nursing Care – Short and Long Term

Short-term residential care should be requested under the short-term support. If an additional cost of care has been agreed this should be included as a separate line on the Support Plan with a breakdown of costs. If a top-up/third party payment is to be set up the details of the third party must be included in the Support Plan. This person must have a Mosaic ID of their own. A signed ACM55 must be uploaded to Mosaic

Day Care Service

If day care has been selected for a new or amended service you must complete a day service support needs matrix within the step to establish the matrix score. Include details of the day service location and the days of the week attended.

If using internal day services send a 'Request Day Service Placement' to the appropriate day service. You must not send the commissioning request to DIT without first receiving the request back from day services.

1:1 costs at external day services should be include as a separate line on the support plan and include a breakdown of the costs. 1:1 costs for younger adults at internal day services are arranged under Care Support & Enablement and will require a CSE Calculator to be completed.

Care Support & Enablement Services: External Supported Living/SL – Outreach

Younger adults' teams use these options. A 'CSE calculator' must be completed within the step to calculate the costs and the total used on the support plan. The CSE Day Service 1:1 Support option is used for support at internal day services. The Outreach option should be used for services where there are less than 40 1:1 hours and no shared costs. Options such as Campus Reprovision and Supported Living+ are specific to certain services.

Deep Cleans – both one-off and regular are commissioned under supported living for all services area and the CSE calculator should be completed using these options with the costs in the Additional costs field.

Home Based Care

All new Home Based Care Services need to be commissioned via the Home Based Care Request next action. The Home Based Care Request Form is contained within this next action. Any amendments (increase/decrease/ceasing) can come through on the support plan with a HBC amendment form. AMG is an exception to this rule.

Please ensure you do not use the managed homecare option for services through a direct payment or younger adults' services that should be commissioned as supported living outreach. All changes and amendments can be sent through on the support plan. If managed homecare has been selected for a new or amended service you must use the appropriate in home care next action when requesting managed homecare services.

One-Off Payments

Use this section to request one-off payments such as Direct Payment set-up costs or one-off deep clean. You must use the 'How will this be arranged' drop-down to specify the type of service and give a description including a breakdown of costs.

Regular Transport/One-off Transport

Complete a Transport Eligibility Assessment within the step if you are requesting a transport service for the first time. Complete an External Transport Request within the step to get a quote for transport costs for new or changed services.

You must then send either a request to order transport and confirm final costs or request to change existing booked transport to transport taxi bookings. Once Transport have confirmed costs these can be added to the costs section of the support plan. You must not send the commissioning request to DIT without first receiving the request back from Transport.
