Short Term Home Care for requests from D2A/ LW/AW/MIS Enablement to HFRS

Once the Short Term Home Care step has been completed by the referring team/individual they will need to add the Reablement START Initial Screening Next Action.

Choose the required team to send the Reablement START Initial Screening to.

NB if sending to the MIS HFRS CCO/OT teams the step will not go into the Total Mobile Scheduler App.

Reablement START Initial Screening

(This was the START Initial Screening Step)

Where HFRS receive this step and completing triage as to whether the package of Care can be accepted (based on the information within the Short Term Home Care Step etc)

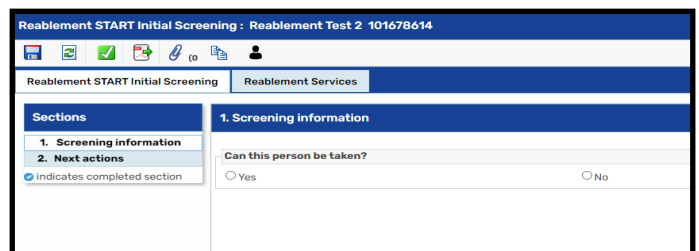

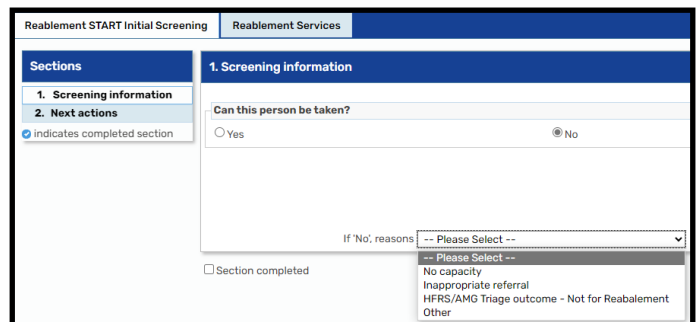

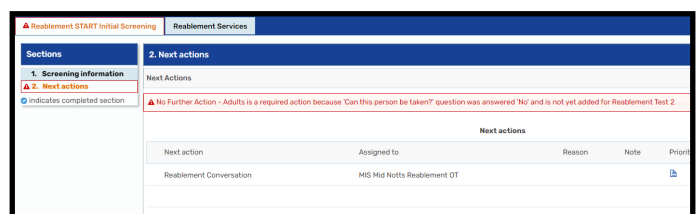

If you select 'No' to "Can this person be taken?"

There is a drop down to select the reason why.

An additional reason has been added for the HFRS CCO/OT's HFRS/AMG Triage outcome - Not for Reablement

If you select 'No' to this question there is the conditional 'Next Action' of "No Further Action - Adults"

HFRS staff do not need to complete the Reablement Services element.

Action

Screen View

If you select 'Yes' to the question 'Can this person be taken' There are some new additional questions added which need completing:-

- If 'Yes' is selected to 'Can this person be taken' you need to select from "MIS Reablement" "HFRS" or "AMG"
- Source of Request, to identify if it is a Community or Hospital Discharge.
- Was the Reablement package terminated prior to the first visit?

If 'Yes' you need to select the Termination Reason

If the package did not go ahead you will see the terminations reasons. Only one can be selected.

If the reablement package was terminated before the first visit you need to send the 'No Further Action - Adults' Next Action

If the package did go ahead-

Complete the detail for the total number of support hours, remember to increase the number of hours if the package is a double up

- select the Next Action Reablement Conversation.
- Send it to the appropriate Team.
- If the work is to be completed by alongside HFRS or AMG it will need to be sent to the HFRS CCO/OT team

Completing the Reablement Conversation Form

Action

Screen View

The Reablement Conversation form is very similar to the Conversation 2 - Action Planning form.

The information in sections 1-3 will prepopulate from previous Conversation forms

It has some additional questions for specifically for the Reablement / HFRS Teams

They are all in section 4 Record of Reablement Conversation and they are:-

The question asking if the reablement was terminated before the first visit has also been included in this form

If you select 'Yes' the termination reasons will appear - select the appropriate one

Type of Plan, MIS Reablement, HFRS or AMG

A table for the person's goals to be recorded including the following details Initial Date, Goal, Method, Achieved and Achieved Date

When you click 'Add' you will be able to record the detail

You can 'Add' as many goals as required for the person by

- 'Clicking' on 'Add'
- Once completed 'Click' 'Add and Close'

To update this once the Goal has been achieved by the person

- 'Click' on the pencil icon at the end of the row and add if the goal has been achieved and the date
- 'Click' on Save Changes

The tables for Action Plan and Action Plan update are used as described above to record the work you are doing with the person

It is not necessary to record this detail in Case notes

Action	By whom	Role	When	Tick if completed	Date completed
--------	---------	------	------	-------------------	----------------

Date	Type of contact	Record	Worker Name
------	-----------------	--------	-------------

Action	Screen View
--------	-------------

If you select 'Yes' to the question "Is a Conversation 3 required" A further question will appear

Completed By - MIS Reablement or D2A

This is asking which Team will be completing the Conversation 3

- If you select MIS Reablement this will create a Conditional 'Next Action' of Conversation 3
- If you select D2A the D2A team will complete the Conversation 3 from their workflow (This is to avoid multiple Conversation 3's been started for the same person)

These 'Tick Boxes' enable you to record any other support that you have put into place for the person

Reablement End Date is the date when your Reablement intervention has ended:

- If the person requires a POC then the end date for MIS Reablement START OT/CCO would be the day before the person moves on to Temp home care as this date would be the end of their Reablement.
- If HFRS/AMG and the person needs a POC then their Reablement end date would be the end date of the OT/CCO involvement.
- If the person doesn't require a POC at the end of MIS Reablement START, then the Reablement end date would be the date of the last support visit.
- If HFRS/AMG if a person doesn't require a POC at the end of their involvement the Reablement end date is the OT/CCO final visit.
- If MIS Reablement START or HFRS/AMG are providing equipment, where there is potential for the equipment provision to change the outcome of the reablement intervention e.g., reduction of ongoing POC the equipment review would need to be completed within the Reablement Conversation step within 'Action Plan update', as you would still be in the Reablement intervention phase and the Reablement End Date would be the date you have completed your involvement.
- If MIS Reablement START or HFRS/AMG intervention and providing equipment, where there is **NO** potential for the equipment provision to change the outcome of the reablement intervention, the Reablement End Date would be the date agreed with the person that the Reablement intervention has ended, equipment review could be completed via the OT Follow Up step.

Action	Screen View
--------	-------------

The 'Closure Codes' have been put into this form

- If you selected 6. Person did not complete reablement a further question will appear for the reason why the person did not complete reablement

Select the appropriate 'Sub Code'

NB as with the Conversation 2 'Step' there are a number of Optional Forms you can access using the Forms and Letters icon

MIS Closure Codes

☐ 1. No further homecare package required at end of reablement

☐ 2. Assessed homecare package at start reduced by the end of reablement

☐ 3. Assessed homecare package at start maintained at the end of reablement

☐ 4. Assessed homecare package at start increased at the end of reablement

☐ 5. Reablement completed transferred to community health pathway

☒ 6. Person did not complete reablement

If user did not complete reablement. Please select the appropriate sub-code here

☐ Sub Code 6a: Person admitted to hospital

☐ Sub Code 6b: Person transferred to LTC

☐ Sub Code 6c: Person died before end of reablement intervention

⚠ Please complete this form

MIS Closure Codes

☐ 1. No further homecare package required at end of reablement

☐ 2. Assessed homecare package at start reduced by the end of reablement

☐ 3. Assessed homecare package at start maintained at the end of reablement

☐ 4. Assessed homecare package at start increased at the end of reablement

☐ 5. Reablement completed transferred to community health pathway

☒ 6. Person did not complete reablement

If user did not complete reablement. Please select the appropriate sub-code here

☐ Sub Code 6a: Person admitted to hospital

☐ Sub Code 6b: Person transferred to LTC

☐ Sub Code 6c: Person died before end of reablement intervention

Next Actions from the Reablement Conversation

Action

There are number of available 'Next Action' available from the Reablement Conversation

Screen View

The screenshot shows the 'Next actions' form. A dropdown menu is open, displaying a list of actions: ADVIS PIW Enablement Plan, ADVIS Reablement Specialist Conversation, Assistive Technology Request, Benefits Team Intervention, Conversation 3 - Building a good life, Financial Adjustment/Amend Reablement Service, Further Conversation required, Meals Request, MIS PIW Request, No Further Action - Adults, OT - Follow up, and Short Term Home Care. The 'Priority' section shows 'Urgent' selected. At the bottom, there are buttons for 'Add', 'Add and close', and 'Close'.

Conversation 3 - Building a Good Life will be a Conditional 'Next Action' if you have answered that the MIS Reablement Team will be completing the Conversation 3

Also if that is the case the Financial Adjustment / Amend Reablement Services will also have to be sent

This is to ensure if an on-going package of care is required the Reablement package can be ended by the Service Placement Team. As they require this step to end the package

The screenshot shows the '5. Next actions' table. It has a header row with columns: Next action, Assigned to, Reason, Note, Priority, and Status. The first row of data shows 'Conversation 3 - Building a good life' assigned to 'Victoria Bok' with a status of 'Proposed'. There is a warning message at the top: 'Reablement Test 2 must also have the following action(s) selected as part of an inclusive rule: Financial Adjustment/Amend Reablement Service'.

Next action	Assigned to	Reason	Note	Priority	Status
Conversation 3 - Building a good life	Victoria Bok				Proposed

Financial Adjustment / Amend Reablement Service - This next Action must be sent to the appropriate Service Placement Team so that the Commissioned Reablement Package can be ended on Mosaic

Further Conversation would be selected if it is identified that the person requires further input such as DFG adaptation. This will enable you to pass this on to the appropriate LW or AW Team

OT Follow up would be selected if you have completed your reablement of the person but have provided equipment for the person which would need reviewing - but this wouldn't affect the reablement decision

Short Term Home Care would only be selected by the HFRS CCO/OT's if they had completed their reablement of the person but had identified that the person would need a longer period of reablement by the MIS Reablement Teams. This enables them to put the referral through to the appropriate team in the usual way
