MOSAIC USER GUIDES : Send Next Action Early

There are a number of opportunities whereby a Next Action can be added and sent before a Step is 'Finished' – this allows another worker / team to begin work on, for example, a Financial Assessment, whilst you are still working within your Step to complete the CASA, START Assessment or other similar Step as necessary.

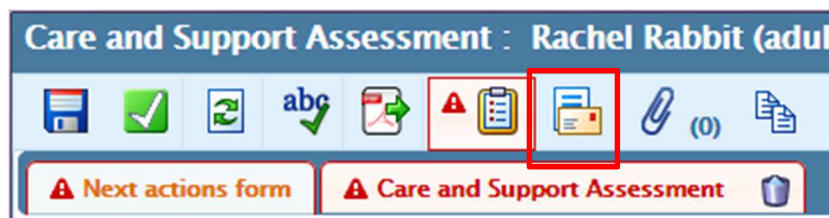

This functionality is via a 'Send Immediately?' tick box option.

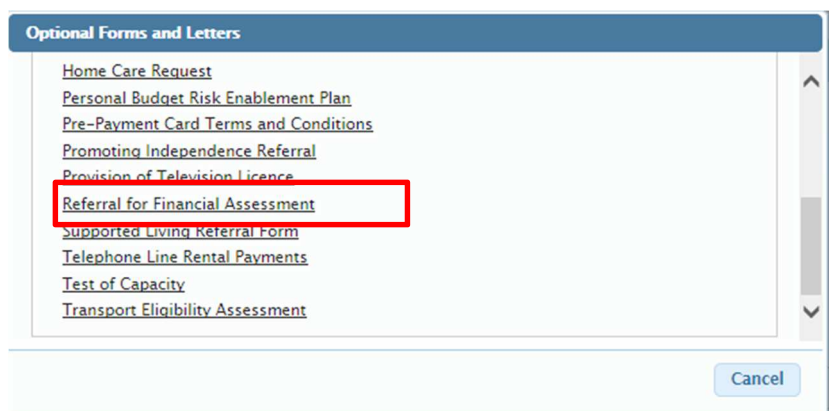

You will need to ensure that any forms applicable to the Next Action you wish to send early are completed before trying to send that Next Action. For example, to send a Next Action early for a Financial Assessment you WILL need to have completed the relevant 'Referral for Financial Assessment' form from the Forms and Letters list.

Example:

Click on the 'Forms and Letters' icon

This will open up the list of available forms and letters and you choose the one applicable to the Next Action you are wanting to send early, complete it and THEN proceed to the Adding and sending of the next action early process.

Complete the form which will open automatically within the Step when you click on the Form link above.
