

Our Cultural Priorities

Our Cultural Priorities

Our six priorities are integral to our culture – they encompass the approach and tools we will use to achieve excellence for ourselves and the people we support. Our cultural priorities are connected to everything we do.

Our Department's Vision

Our Department's Vision is to improve the health and wellbeing of our people.

Our environment can be an unpredictable and challenging place to work. And though we must continue to support our communities, we want to do our part to help ourselves become more adaptable and self-sustaining in how we work.

So, we're progressing our workplace culture by improving how we communicate and positioning people at the heart of everything we do, including shaping the ODP and strengths-based culture we all want to see.

The culture we'll nurture

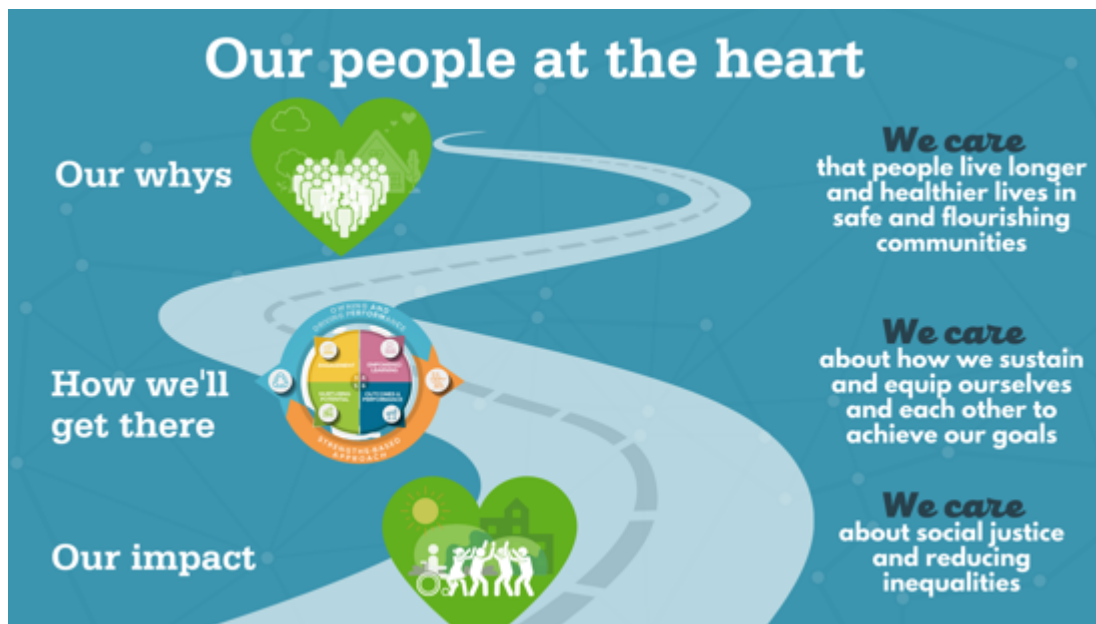

Through our attention and commitment to ODP and strengths-based approach, we are developing a high-trust and high-performance culture where people feel empowered to act with resilience and support themselves and each other every day.

That means:

- Every colleague understands our Cultural Priorities
- Everyone cares about making ASCPH a great place to work and is willing to listen and collaborate
- Each person understands how working collaboratively and in partnership can free up creativity and resourcefulness and create solutions that make us better for ourselves, our teammates, and our communities
- Co-creating impactful communication that is consistent, caring and is two-way
- We practice ownership and self-sufficiency in what we do
- People experience a greater sense of belonging and higher positive well-being
- Each person is cared for and valued by their peers and leaders

Our Big Picture

Our Big Picture brings to life the whys, how we'll get there and the impact we aspire to have.

Our Whys

People are at the heart of what we do. And our department's Ambition which is about "Helping our people live healthier and more independent lives" is rooted in a greater purpose - to make a difference in social justice and promote equality of outcomes and access for everyone.

We care that people live longer and healthier lives in safe and flourishing communities.

Our Voices

Listen to colleagues share what cultural priorities mean to them.

How we'll get there

Having one joined-up set of priorities will help us evolve and consolidate the ODP culture that colleagues tell us they want.

These six cultural priorities will assist us in nurturing closer relationships, breaking down silos, and encouraging collaboration and connected ways of thinking and working.

We'll establish a standard where colleagues own and drive their performance and work in a strengths-based way because **we care about how we sustain and equip ourselves and each other to achieve our goals.**

Our Impact

Promoting social justice and equality

We'll promote equity of outcomes and access for everyone in all our communities, including those of protected characteristics.

We'll have a positive impact on ourselves and our colleagues

- You understand the Cultural Priorities and combine them into your everyday actions.
- You resonate with the Council's vision, ambition, and values, and you can link them with our department's goals.
- You work in a strengths-based way and own and drive your performance.
- You have more job satisfaction.
- You feel happier and healthier in the workplace.
- You see more straightforward communication between leaders and the workforce.
- You feel informed about what's happening in the department and can monitor how we're doing against our goals.
- You feel recognised: valued, heard, and trusted.

- You feel empowered and have the right tools and resources that you need.
- You make a difference – you understand that what we invest in ourselves will have a tangible impact on people and our communities.

We'll have a positive impact on our communities of Nottinghamshire

- You'll know how to work in a strengths-based way, and have a framework that helps you own and drive your performance, to have a positive impact on people by:
 - Putting people at the heart of what we do.
 - Ensuring that we meet high standards of safety, **quality**, and **assurance**.
 - Protecting the rights of people who have unfair restrictions on their freedoms.
 - Working with and improving the standard of care for people and their families who access and use our services.
 - Focusing on people who find themselves in more vulnerable circumstances.
 - Providing accountability to the public and taxpayers for how we spend money to improve outcomes for people.
 - Promoting Social Justice and Equality.

We'll promote equity of outcomes and access for everyone in all our communities, including those of protected characteristics.
