

HBC REQUEST THAT NOW REQUIRES WITHDRAWING

CHECK LIST

It is recommended that no Home Based Care Request is withdrawn

- **Email:** Submit an email to ServicePlacementTeam@nottscg.gov.uk advising that the request needs to be withdrawn stating the reason why.
- **Withdraw:** The Service Placement Team will access Mosaic and withdraw the request and place a copy of the withdrawal request email on case notes.
- **Accepted Care:** If a provider has already accepted the package of care the worker is required to notify the provider that the package of care is no longer required
- **Support Plan:** Update the current support plan by removing the associated cost. Please note this only applies to packages that have not been commissioned.
- **Alternative provider:** If an offer has been received and subsequently retracted, please contact QMM to inform them that you're looking for a different provider than the one initially identified and provide the rationale for this modification, so they can understand and consent to it. Please note: If this involves an Additional Provider, you should communicate with them to ensure they don't make an offer on the new Home Based Care request.
- **Commissioned:** Where the package has been commissioned and where no service has been provided you will need to send in a step to cancel the commissioning . Please add cancel commissioning in the note to SPT.
