
Continuing Health Care (CHC) staff guidance and support

The links below provide advice and guidance on the processes to be followed when working with people who might be, or are eligible for, continuing health care.

Please note that this guidance does not relate to s.117 after care. Guidance for this area of work can be found on the [section 117 page](#).

Where processes and policies have been agreed with partner organisations, this will be stated.

Meet the team

The CHC team is a countywide service established in April 2025, evolving from the former Joint Funded Reviews team. The team provides expert support to staff and residents across Nottinghamshire, leading on all aspects of Continuing Healthcare. This includes completing Decision Support Tools (DSTs), coordinating Joint

Funding arrangements, supporting dispute resolution, and offering specialist advice on CHC matters. The team works in partnership with community teams to ensure assessments are timely, strengths-based, and clearly recorded in Mosaic.

Key priorities of the team include:

- ensuring timely attendance and professional input at DST assessments
- advocating effectively for individuals who may be eligible for health funding
- reviewing care and support needs using a strengths-based approach.

The CHC team provide both online and in-person training to district teams, supporting them to complete DSTs and to clearly distinguish between health needs and social care responsibilities under Section 22 of the Care Act. They deliver expert recommendations, maintain accurate recording on Mosaic, and refer individuals back to community teams for full social care reviews where appropriate.

CHC team members

Jasmine Langley - Senior Commissioning Officer

Jo Sunderland - Commissioning Officer

Head of Service - Vacant
