

sc Conversation 3 - Building a Good Life

Record of Conversation

Conversation 3 is our assessment conversation, where we consider the person's needs and longer term support. We talk to the person to understand what a good life looks like to them and their family, helping them to get the support so they can live the best life possible.

Throughout the conversation consider the 9 areas of wellbeing (shown below) and the impact on the person's daily life

Being involved

Mental Capacity

Mental capacity is the ability to make your own decisions. Your social care worker may need to assess whether you have the mental capacity to agree to this assessment. They will talk to you and who is important to you or know you well about this.

Does the person have capacity to agree to the assessment process?

☐ Yes

☒ No

If No, please evidence reasonable belief of lack of capacity and the best interest decision to proceed or not proceed with assessment including rationale for this particular action.

If No, please evidence reasonable belief of lack of capacity and the best interest decision to proceed or not proceed with assessment including

Record:

- **why this assessment conversation is needed;**

- **the observations / information about the person used to inform your decision about capacity to agree to the assessment process;**

rationale for this
particular action.

- the best interest decision, including your rationale for continuing with this assessment conversation or not.

Does the person need support to be fully involved?

☒ Yes

☐ No

☐ Sometimes

Please record how
the person has been
supported to be
involved fully.

There is a duty for the local authority to arrange an advocate if failure to provide an advocate would lead to the person having substantial difficulties being involved in these processes AND there is no appropriate individual available to support the person who is not paid or professionally engaged in providing care for them.

Record:

- the reasons why the person needs support to be involved fully in their assessment conversation; and,

- how the person's involvement has been promoted.

Consider communication needs e.g. an interpreter, visual / easy read information or support from a Speech and Language Therapist.

Consider ways to adapt the assessment conversation to enable the person to be involved e.g. provide information in advance to a carer or paid support worker to help the person prepare.

Care Act advocate requested?

☒ Yes

☐ No

People involved in this conversation

Name	Relationship to the person

Health

What would the person like us to know about their health and/or disability?

Record information about the person's physical and mental health related diagnoses, needs and relevant medical history that impact on their daily life.

For reasons of accuracy, please do not list current medications and doses as these can change. Instead, include relevant information about their medication and how to administer it, if someone providing care and support to the person would need to know it, e.g. timings, before or after food, what support someone needs with medication compliance, etc.

When someone needs a lot of help because of their health, complete a CHC Checklist form in Mosaic.

[Here is the guidance for Continuing Health Care](#)

Record of conversation

[Here is the guidance for Conversation Three](#)

[Here are person centred thinking tools](#)

[Here is the risk enablement guidance](#)

What does the person want to achieve and what would help to achieve it?

Record:

- a summary of what a good life looks like to the person;**
- the goals they want to achieve and what would help them to get there.**

Include their dreams as well as everyday 'ordinary' goals. Ask what do they want to be able to do / have in their life?

Consider using person centred thinking tools Good Day / Bad Day and Important To / Important For (see link above)

Remember - how the support will be delivered is recorded in the Care and Support Plan

Summary of the person's strengths, needs and risks

Record:

- the person's strengths e.g. personal traits like persistence; likes and dislikes; their important relationships (family and friends); their wider support network and community links if any (activities they are already involved in) etc.;**

- how the person manages their daily needs and what they find difficult;
- any risks and ways these could be managed (consider using the Risk Assessment and Enablement Record in this step where there are multiple risks);
- relevant information from other people involved with the person about their strengths, needs and risks.

Consider using person centred thinking tools What's Working / What's Not Working, Good Day / Bad Day and Relationship Circle (see link above)

Care Act Eligibility

[Click here for more guidance on the national eligibility criteria](#)

Step 1. Needs

The person has needs related to a physical or mental impairment or illness?

☒ Yes

☐ No

Step 2. Outcomes

As a result of these needs, the person is unable to achieve two or more of the following outcomes. Please tick all that apply:

☒ Yes

☐ No, but discretion applied

☐ No

☒ Managing and maintaining nutrition

- ☒ Maintaining personal hygiene
- ☒ Managing toilet needs
- ☒ Being appropriately clothed
- ☐ Being able to make use of the home safely
- ☒ Maintaining a habitable home environment
- ☒ Developing and maintaining family or other personal relationships
- ☐ Accessing and engaging in work, training, education or volunteering
- ☐ Making use of necessary facilities or services in the local community including public transport and recreational facilities or services
- ☐ Carrying out any caring responsibilities you have for a child

Where the second test has not been satisfied, but information suggests that discretion should be used, please provide detail:

Step 3. Which areas wellbeing are impacted

As a consequence of not being able to meet two or more outcomes, there is, or there is likely to be, a significant impact on the person's wellbeing? Please tick all that apply.

☒ Yes ☐ No

- ☐ Personal dignity including being treated with respect
- ☒ Physical and mental health and emotional wellbeing
- ☐ Being protected from abuse and neglect
- ☒ Control over day to day life
- ☐ Ability to participate in work, education, training or recreation
- ☐ Social and economic wellbeing
- ☒ Family and personal relationships
- ☐ Suitability of accommodation and living arrangements
- ☐ Contribution to society

Evidence of professional decision making

Please record the rationale for your decision about the person's eligibility for care and support.

Record:

**- your rationale about the person's eligibility for care and support
e.g. what is the impact on the person if they do not receive**

Consider the impact of the person's needs on their wellbeing. Include differences of opinion and how these were resolved.

support? what are the risks? Consider the 9 areas of wellbeing listed above;

- **your rationale if discretion has been used to decide eligibility where only one listed outcome cannot be achieved;**
- **any differences of opinion and how these have been resolved;**
- **any information and advice given;**
- **any next steps agreed.**

The support the person needs during the day

Amount of support required during the day:

2 - 2.5 hours a day

Support required during the day from a second carer:

I don't need any support from a second carer during the day

The support the person needs at night

The level of need identified below should reflect the amount and kind of support needed at night.

Support required at night:

I have needs at night that could be met by assistive technology

The support the person needs in the community

This could include the support needed to establish and maintain important relationships, to help identify and access opportunities to get into paid or voluntary work or education and training, access community facilities such as shops and leisure and recreational activities.

Amount of support required in the community:

I need support in the community 1-2 times a week

Please record below a brief outline of how the level of support identified above could be used to meet your needs in the community. This should reflect the needs identified in the assessment, and identify the kinds of tasks that could meet these needs. This is not a support plan, and does not need to specify who will provide this support or when it will be provided.

Please record below a brief outline of how the level of support identified above could be used to meet your needs in the community. This should reflect the needs identified in the assessment, and identify the kinds of tasks that could meet these needs. This is not a support plan, and does not need to specify who will provide this support or when it will be provided.

Record the needs for support in the community e.g. assistance with banking once a week.

The help you currently get

Please record below approximately what proportion of the needs identified above are currently being met by:

- informal support (unpaid carers)
- any equipment or adaptations currently being used
- any service provided by voluntary or community services, or
- any service being provided through the NHS or any housing provider

This does not include any needs currently being met by any professional services the person is funding themselves.

The worker should ensure that anyone providing informal support is willing and able to continue providing the level of support that is recorded below. Anyone providing informal support is entitled to a **Carers Conversation** if they feel it would benefit them, which may identify ways to support them in their caring role.

Amount of help received during the day:

I receive a small amount of help during the day

Amount of help received during the night:

I don't receive any help with my needs during the night

Amount of help received in the community:

I don't receive any help with my needs in the community

Please briefly outline below when and how this help is provided and by whom.

Include support from unpaid (family or friends) carers and use of any equipment or technology to meet need.

Indicative Personal Budget

Indicative Personal Budget: £

167.27

Indicative Personal Budget amount is calculated by a Resource Allocation System (RAS) based on the answers in this record

The indicative budget is a guide only. The amount of support received will be determined during support planning.

Paying for Care

Have financial contributions and disability related expenses been discussed?

☒ Yes

☐ No

[Here is the guidance for the DRE](#)

[Here is the guidance for paying for care](#)

Record financial discussion about paying for care and support or reason this was not discussed.

Record:

- information given including disability related expenses and any factsheets;
- response from the person or their family;
- any concerns about paying for care and how these might be addressed.

Date of financial discussion

Agreement to share information

We may be required to share your information with and/or obtain information from organisations involved in your care.

Nottinghamshire County Council is committed to protecting your privacy and ensuring all personal information is kept confidential and safe. We will record your information in line with our Privacy Notice. You can listen to our Privacy Notice by calling the Customer Service Centre on 03005008080. Alternatively, you can go to

www.nottinghamshire.gov.uk/global-content/privacy

In order to provide you with the best support possible we may need to share your information with partner agencies outside of health and social care. Do you agree to us sharing your information?

If the person does not give agreement to us sharing their information with other partners this might limit our ability to provide the necessary care and support to meet their needs

☒ Yes

☐ No
