---

## Guide for Community Workers - Quick Reference Guide Manage referrals for service through Mosaic

This quick reference guide is designed to inform those who are using Mosaic for managing referrals to the Home First Response Service.

## Welcome to the Home First Portal

---

Over the last 6 months, an internet based electronic solution called the 'Home First Portal' has been developed by our internal ICT team and built for the use of our Home First Response Service provider - Carers Trust East Midlands.

The Home First Portal is designed to interact with the '*Home First Response Service – Hospital Discharge and Community*' Mosaic Workflow - exchanging customer information quickly, seamlessly and in accordance with the new GDPR Data Protection policy.

The Home First portal enables NCC staff to submit a Home First referral, receive responses within 2 hours and receive updates from the provider – while the service user is in their service. The Home First portal listens out for referral requests every few minutes and provides real-time updates between the provider and Mosaic.

The information provided by Carers Trust East Midlands is intended to help inform the Community Assessment and Support Plan.

Whilst the Portal has been developed to handle some communication between Carers Trust and Nottinghamshire County Council - is not intended to replace all communication.

## **‘Need to knows’ about The Portal**

---

The Portal polls every 2 minutes and ‘listens’ for new referral requests.

Some mandatory fields have been built into Notts County Councils referral form for example ‘District’. If these fields are not completed, the form will not submit to the Portal.

To help promote best practice completion of referrals to the Portal, Carers Trust will reject referrals with mis-matched information for example, where a worker has inputted an incorrect District into a field.

**Throughout this guide all areas of  
‘BEST PRACTICE’ are identified like this example**

## How to access the Mosaic Workflow

The Home First Response Service Workflow can be accessed from either the 'Contact' or the 'Contact Plus' '**STEP**' as detailed in the workflow maps below;

### Contact Step

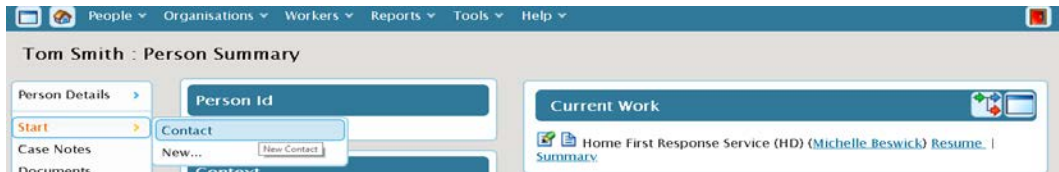

### Contact Plus Step

- Before you create the Contact step, please ensure that you have been given consent to share information. This will help avoid inappropriate Contacts being created and stored within Mosaic.
- The Contact Plus must only be started if a Contact has already been completed for the Service User and there is a 'Contact Plus' in their incoming work).
- Please check before completing a referral that the Service User does not already have a long term package of care in place. In these instances, Home First Response Service will not be an appropriate service.
- Please ensure that referrals are submitted to Carers Trust at the time it is identified that a service is required and not sent as batch of referrals – this assists Carers Trust with understanding ongoing service capacity.

## Completing a Referral

- Select 'Start' and create a new 'Contact'.
- Complete all appropriate information within each section of the Contact Step.

- Then, Select 'Next Actions' Form and using the drop down list and select 'Home First Response Service Community' and you will then need to select 'Assign to Me'. 'Add and Close' the form and then finish the step by selecting the .

- Next, go to your incoming work and 'Start Work' on the Home First Response Service (Community) Step.

| Type     | Title                                   | Subject (ID)              |
|----------|-----------------------------------------|---------------------------|
| Folder   | Incoming Work [2]                       |                           |
| Document | Home First Response Service (Community) | Maisy Goddard (101033359) |

- This will enable you to complete the newly created 'Community HFRS' referral form.
- Within the form, there are a number of fields where the information has been Pre-populated from the Person summary screen.
- Any fields which have the '**Gold**' cogs at the side of them mean that the information can be amended within the form (however if the information recorded on the Person Summary screen is incorrect it is recommended that it is amended).

## Completing a Referral - Continued

- Complete the referral form with the relevant information.

The screenshot displays the 'Community Home First Request Form' with the following sections and fields:

- Sections:** 1. Community Home First Request Form (indicated as completed).
- Person information:** Service user name (Tom Smith), Date of birth, Address (15 Fairway Crescent, Nottam, NOTTINGHAM, NG13 8JG), District\* (Please Select), Home phone number, Mobile telephone number, GP details, NRS Number.
- Next of Kin Details:** Title, First Name, Post Code, Telephone Number.
- Referral details:** Date of referral, Service start date.
- Team from completed by:** Adult access, District team, EDT.
- Consent:** Consent to share information (Please Select), MCA Best Interest.
- Requirements:** Health Needs, Home Circumstances, Mobility / Transfers, Approximately how many visits per day will be required?, 2+ Carers Required (Please Select), Risks, Summary of needs / Support required.
- Completed By:** Worker Name (Michelle Bewick), Worker Team (Resources Worker - I), Work Telephone Number, Work Mobile Telephone Number, Date (04/06/2018).
- Has an update from the provider been received?** Yes, No, N/A.

- There are '**guidance notes**' provided with details of the required information to be recorded within the form; these are accessed by '**clicking**' on the icons with the question marks.

## Completing a Referral - Continued

To ensure that the referral successfully submits to the Portal, it is critical that you complete the following fields in the referral form;

- 'District'
- 'Date of referral'
- 'Service Start Date'
- 'Team Form Completed by'

The screenshot displays two parts of a web form. The top part, titled 'Referral details', includes fields for 'Date of referral' (04/06/2018) and 'Service start date' (05/06/2018). Below these is a section 'Team form completed by' with radio buttons for 'Adult access', 'District team' (selected), and 'EDT'. The 'Consent' section has a dropdown for 'Consent to share information' set to 'Yes' and a text area for 'MCA Best Interest'. The bottom part, titled 'Next actions form', has a tab 'Community HFRS Request' and a 'Person information' section. This section includes fields for 'Service user name' (Tom Smith), 'Date of birth', 'Address' (15 Fairway Crescent, Newton, NOTTINGHAM, NG13 8HJ), and 'District' (Rushcliffe, selected from a dropdown). A sidebar on the left shows 'Sections' with '1. Community Home First Request Form' and a note 'indicates completed section'.

- Once the form has been completed and you are ready to submit your request to the Provider you now need to **'Click'** on the **'Requests'** icon and select the **'Request Type'** of **'Required – refer to provider'**.
- In the 'Pass to Worker' field - select 'Carer's Trust' and select 'ok'.
- This information will then 'fire' through to the Portal.
- Select  icon to Save and close the step.

## Completing a Referral - Continued

- Best Practice – DO NOT finish the 'Home First Response Community' step.
- This step must remain open in your incomplete work folder until you receive either the;
  - 'provider update' or an
  - earlier notification of a rejection of the referral and/or
  - failure to start service notification

**New Request**

| Select                           | Request Type                                | Status (Date) | Assigned To |
|----------------------------------|---------------------------------------------|---------------|-------------|
| <input checked="" type="radio"/> | <b>REQUIRED</b> Refer to Provider           |               |             |
| <input type="radio"/>            | Accept Home First Response Service Referral |               |             |
| <input type="radio"/>            | Acknowledge Provider Rejection              |               |             |
| <input type="radio"/>            | Acknowledge Receipt of Provider Start Date  |               |             |
| <input type="radio"/>            | Acknowledge service failed to start         |               |             |
| <input type="radio"/>            | Acknowledge service start delay             |               |             |
| <input type="radio"/>            | Acknowledge Update from Provider            |               |             |

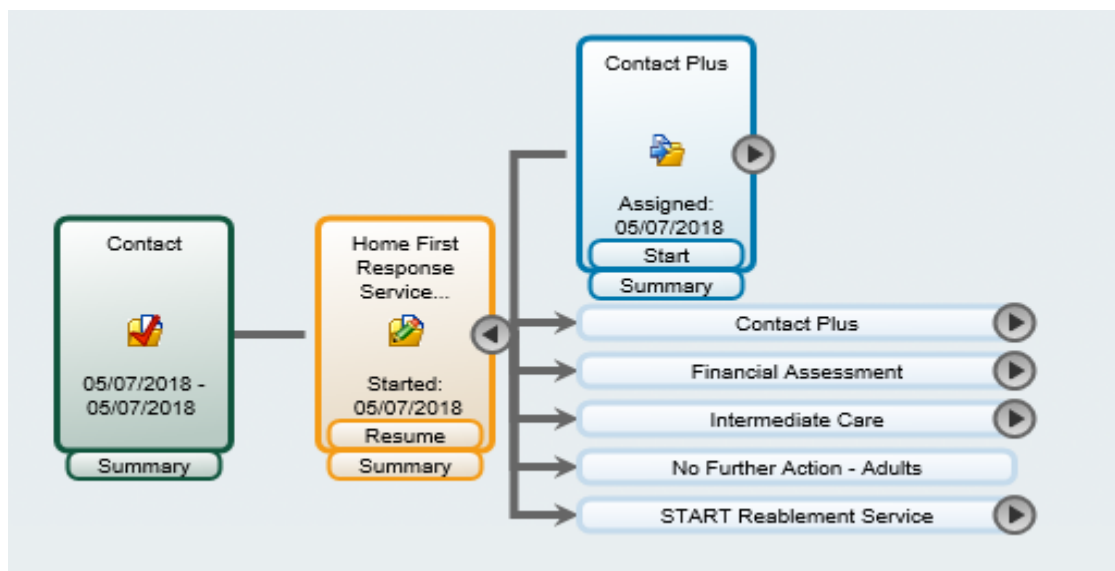

Note: Service to start 23/5 - PM visit please.

Pass to Worker: **Carer's Trust**

OK Cancel

## What if an Assessment is required?

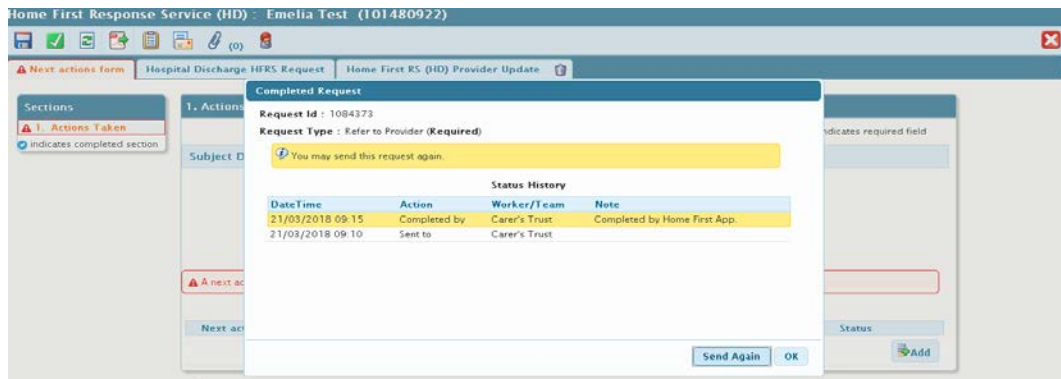

- You will not be able to send a Contact Plus and a Home First Response Service next action from a Contact at the same time. If a Care and Support Assessment is required you can access the Contract Plus from the Home First Response Service step and how you begin this will depend on when you want to start it.
- If you want to start a CASA at the same time as sending a referral to the Home First service then you will need to select the next action of **Contact plus from the Home First Response Service step and tick the 'Send immediately' box.**
- This will mean that the CASA will run parallel to the Home First Response Service workflow (shown below)

- Once you have selected the 'NEXT ACTION(S)' (and completed the HFRS referral) please ensure you 'CLICK' save using the 'save'  Icon.
- You can also chose a Contact Plus as a next action once the service user has left the service and you are closing the Home First Response Service step.
- You can also chose a Home First Response Service next action from a Contact Plus step.

## I've submitted the referral form – what happens next?

- The HFRS Community referral can immediately be seen by Carers Trust within the Portal.
- Evidence of this can be seen by clicking on the  Requests icon where you can see the date and time that the provider received the referral.

The scenarios below will guide you through the correct screen instructions. There are also links to useful **Video Guides** for each scenario to assist you with navigating the screens.

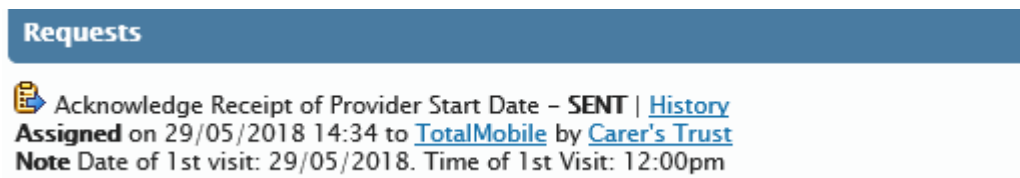

- Scenario 1 – Provider Accepts Referral and Confirms Start Date - Page 11
- Scenario 2 – Provider Refuses the Referral - Page 16
- Scenario 3 – Delay to Service Start Date - Page 18
- Scenario 4 – Service Fails to Start – Page 19
- Scenario 5 – Rejection - No Capacity to Start, Try again later – Page 20

## Scenario 1 – Provider Accepts Referral and Confirms Start Date

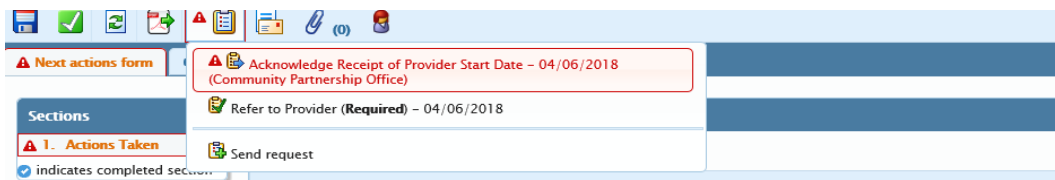

- The Provider will confirm **acceptance into service** within 2 hours of receipt of the referral.
- Within your 'teams incoming work folder' there will be a highlighted incoming request called 'Acknowledge Receipt of Provider Start Date Home First Response Services (HD)'.

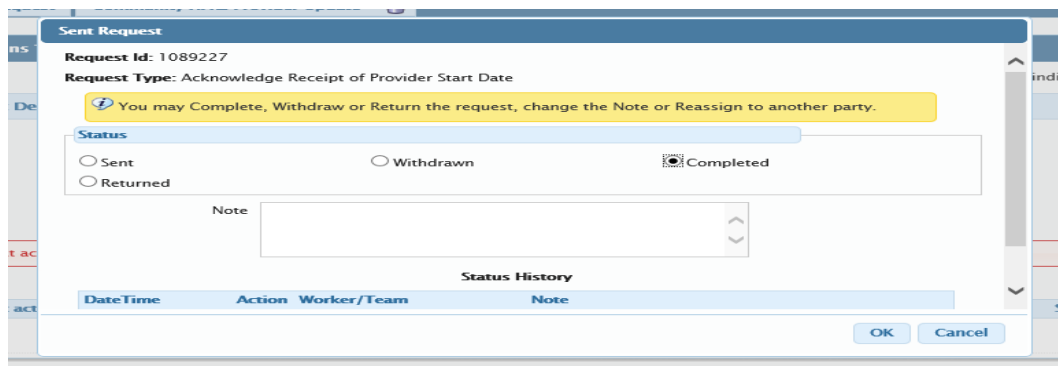

- As a useful reference tool, details of the start date and time can also be found within the 'Requests' field of the referral.

- Select the 'requests'  icon and 'Acknowledge Receipt of Provider Start Date'.

- Select the 'Completed' radio button to acknowledge the request.

## Scenario 1 – Continued

**Best Practice – When acknowledging requests, you must always select the ‘completed’ radio button. The Portal ‘listens’ for each time you have selected ‘completed’ and this updates the status of the referral within the Portal.**

- Within 72 hours of the service commencing, the Provider will complete a ‘Provider Update’ form. See page 15 of the guide for further instructions.
- This will trigger a further request being sent to your teams incoming work folder.
- Acknowledge the request by selecting ‘completed’.
- You can then ‘resume work’ on the Home First Community Step and the Update Form and its contents can be found on the ‘Community HFRS Update’ tab.

**Next actions form** | **Community HFRS Request** | **Community HFRS Provider Update**

**Sections**

- 1. Person Update
- indicates completed section

**1. Person Update**

Name: Mrs Training Comacs

Address: 175A Musters Road  
West Bridgford  
NOTTINGHAM  
NG2 7DQ

Date of Birth: 13/06/1950

Start Date: 04/06/2018

Predicted End Date (if known): 05/06/2018

Was the Service cancelled before it began?

☐ Yes ☒ No

## Scenario 1 – Continued

- If the service has completed and there is no longer a need for Reablement and/or long term support you will need to go to 'Next Actions' to complete the Step.
- If the client requires an ongoing service, and a Care and Support Assessment hasn't yet been started, you can start a Contact Plus from the 'Community HFRS Step' to begin this process (as described in the 'What if and Assessment is Required' page).
- Prior to finishing the step, there is a mandatory question within the 'Community HFRS Step' which needs to be completed. **You will not be able to finish the step without confirming that 'an update from the provider has been received'.**

Completed By

Worker Name: Michelle Beswick

Worker Team: Resources Worker

Please provide work telephone numbers so that an update can be provided

Work Telephone Number: 234235

Work Mobile Telephone Number: 25323

Date: 04/06/2018

Please ensure this question is only completed once the update form from the provider has been received.

Has an update from the provider been received?

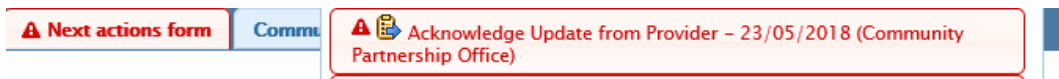

☒ Yes ☐ No ☐ N/A

☒ Section completed

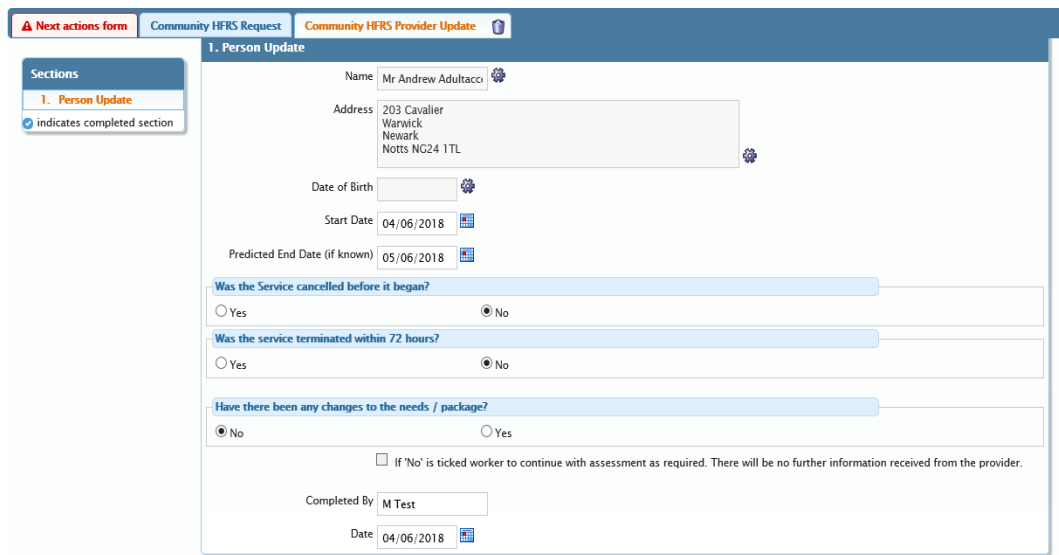

- You may then finish the step by selecting 'next actions forms' tab and selecting the relevant action to either finish or send on the referral to the next team.

## The Provider Update Form

- The form provides a platform for the Provider to share detailed information and/or updates 72 hours after delivery of the service.
- The form content will automatically be populated with information from the provider and appear in the HFRS Community Step.
- A request of 'acknowledge Provider Update' will go into the team incoming requests folder.
- Select the requests icon  and 'acknowledge receipt of the Provider Update form' by selecting the 'completed' button.

- Find the step in your incomplete work folder, 'resume' work and read the information contained within the Update Form.

## The Provider Update Form – Continued

- If the service has completed and there is no longer a need for Reablement and/or long term support you will need to go to 'Next Actions' to complete the Step.
- If the client requires an ongoing service, and a Care and Support Assessment hasn't yet been started, you can start a Contact Plus from the 'Community HFRS Step' to begin this process
- Prior to finishing the step, there is a mandatory question within the 'Community HFRS Step' which needs to be completed. **You will not be able to finish the step without confirming that 'an update from the provider has been received'.**

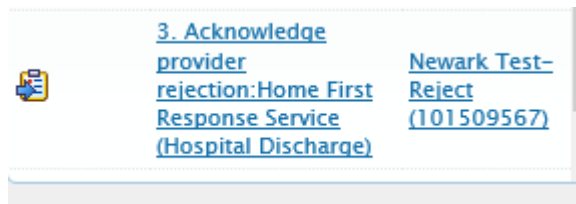

The screenshot shows a form titled 'Completed By' with the following fields and content:

- Worker Name:** Michelle Beswick
- Worker Team:** Resources Worker
- Instructions:** Please provide work telephone numbers so that an update can be provided
- Work Telephone Number:** 234235
- Work Mobile Telephone Number:** 25323
- Date:** 04/06/2018
- Instructions:** Please ensure this question is only completed once the update form from the provider has been received.
- Question:** Has an update from the provider been received?
- Options:** ☒ Yes, ☐ No, ☐ N/A
- Status:** ☒ Section completed

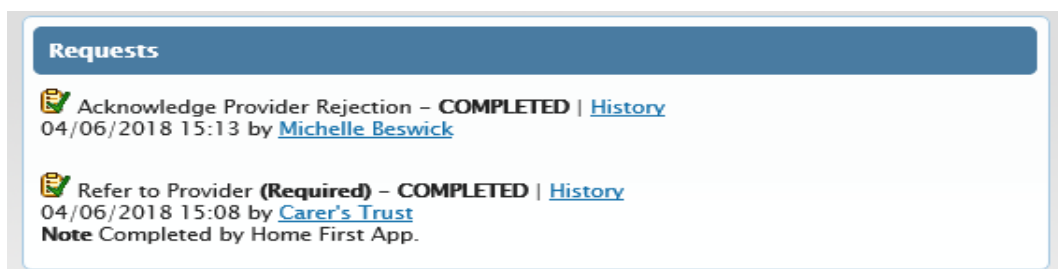

- You may then finish the step by selecting 'next actions forms' tab and selecting the relevant action to either finish or send on the referral to the next team.

## Scenario 2 – Provider Rejects the Referral

- Refer to your team 'incoming request folder' and search for the request for the Service User.
- Select 'Acknowledge Provider Rejection'

- In the requests area, there will be audit trail including a note from Carers Trust detailing the reason for the rejection of the referral. See below.

- 'Resume' work on the step and select the 'requests' icon

## Scenario 2 – Provider Rejects the Referral - Continued

- This will allow you to 'acknowledge provider rejection' by selecting the 'completed' button.

Sent Request

Request Id: 1089267

Request Type: Acknowledge Provider Rejection

You may Complete, Withdraw or Return the request, change the Note or Reassign to another party.

Status

☐ Sent ☐ Withdrawn ☒ Completed

☐ Returned

Note

Status History

| DateTime | Action | Worker/Team | Note |
|----------|--------|-------------|------|
|----------|--------|-------------|------|

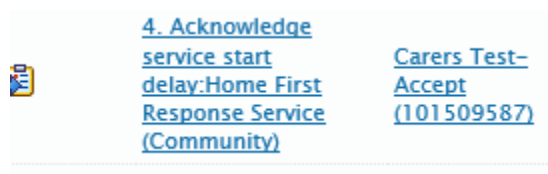

OK Cancel

- You will then need to select the 'next actions' tab and finish the step with the appropriate 'action'.
- You will then need to go to the 'next actions' tab and finish the step as appropriate i.e. 'NFA' or sending the step to an alternative service.

**Best Practice – If Carers Trust have rejected your referral due to missing start date of service or incorrect District – please to page 23 of the guide for guidance on how to 'resend the referral'.**

## Scenario 3 – Delay to Service Start Date

- This example covers scenarios such as where there is a short delay to hospital discharge, or day that care needs to start has slipped.
- If the Provider needs to advise the worker that there will be a short delay to the service start date then they will send a request to your teams 'incoming work folder'.
- Select 'Acknowledge Service Start Delay for Home First Response'.
- Within the 'requests' area, you will find a note from the Provider giving details of the delay.

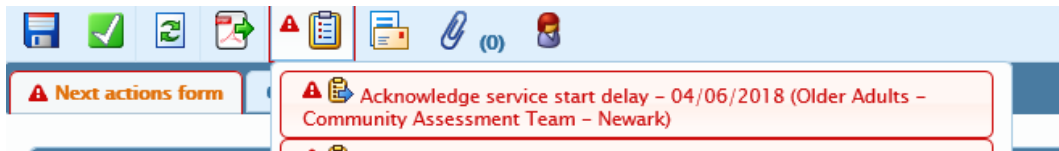

- 'Resume' work from the requests on the step and select the 'requests' icon.
- You will need to 'acknowledge service start delay' by clicking the 'completed' radio button.

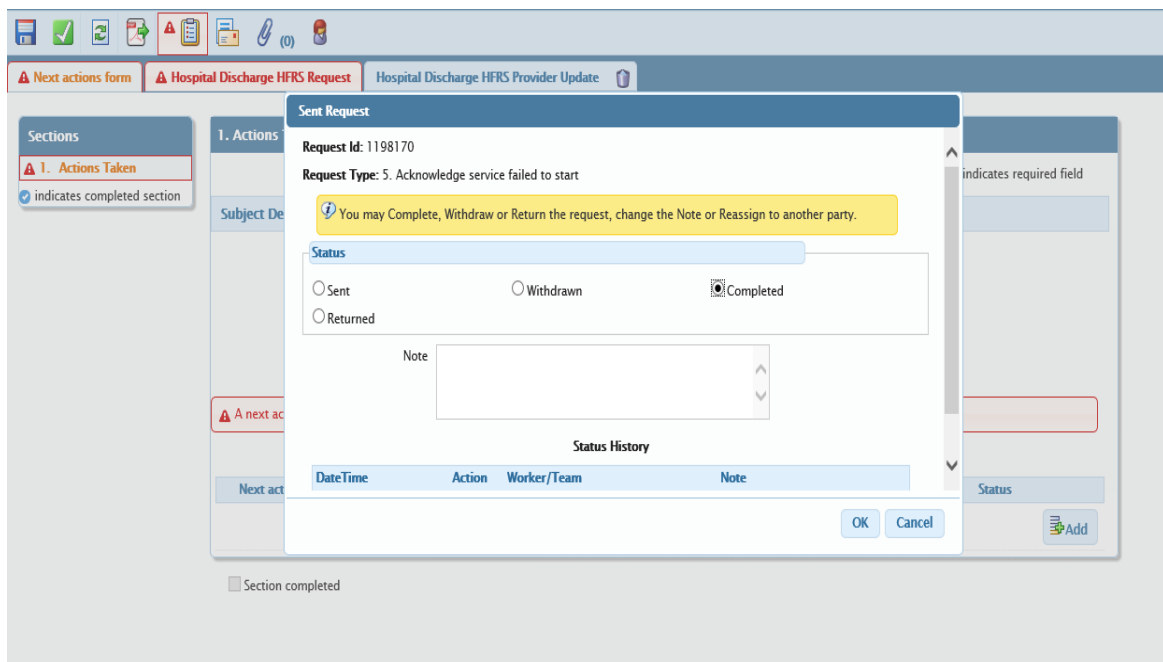

- When you are ready to re-send the referral to the Provider, select the 'requests'  icon and 'refer to provider'.

## Scenario 4 – Service Fails to Start

- This scenario covers examples such as where the Service User has not been discharged from hospital or if the Service User has declined the service.
- In your 'team incoming requests work' folder Select the SU record and 'resume' work.
- Select the 'requests' icon  and you will need 'Acknowledge the service failed to start' – see below.

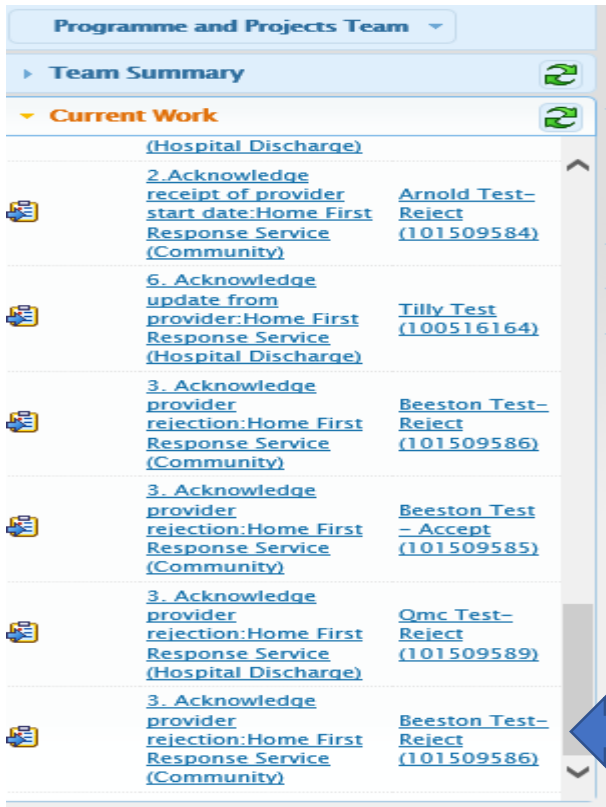

- Select 'Acknowledge the service failed to start'- this will return the request dialogue box;

- Select appropriate next action and follow actions at end of Scenario 1 to complete Step.

## Scenario 5 – Rejection - No Capacity to Start – Try again later.

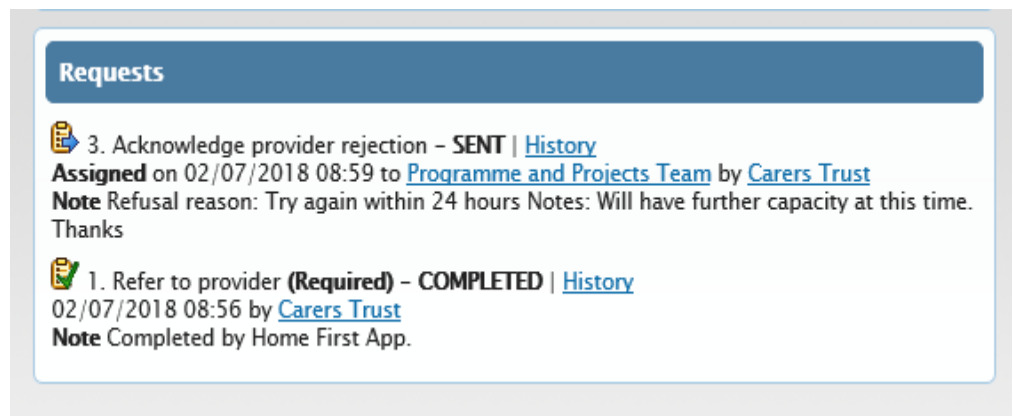

- Within your incoming team folder, select the request and read the note provided by Carers Trust – this is contained in the 'Requests' field.

| Programme and Projects Team |                                                                                       |                                   |

| Current Work                |                                                                                       |                                   |
|                             | (Hospital Discharge)                                                                  |                                   |
|                             | 2. Acknowledge receipt of provider start date:Home First Response Service (Community) | Arnold Test- Reject (101509584)   |
|                             | 6. Acknowledge update from provider:Home First Response Service (Hospital Discharge)  | Tilly Test (100516164)            |
|                             | 3. Acknowledge provider rejection:Home First Response Service (Community)             | Beeston Test- Reject (101509586)  |
|                             | 3. Acknowledge provider rejection:Home First Response Service (Community)             | Beeston Test – Accept (101509585) |
|                             | 3. Acknowledge provider rejection:Home First Response Service (Hospital Discharge)    | Qmc Test- Reject (101509589)      |
|                             | 3. Acknowledge provider rejection:Home First Response Service (Community)             | Beeston Test- Reject (101509586)  |

- The referral may only be rejected due to lack of capacity once by Carers Trust.
- If there is a further delay then the step must be ended by selecting 'No Further Action' on the 'Next Actions' tab.
- You will need to create a new Contact to recommence the service.

- Here is the Rejection note ;

[Send Again](#) [OK](#)

## Scenario 5 – Rejection - No Capacity to Start – Try again later - Continued

- Select 'Ok'

The screenshot shows a 'Resend Request' dialog box with a blue header. Inside, the 'Request Type' is set to 'REQUIRED 1. Refer to provider'. The 'Note' field contains the text 'Completed by Home First App.'. The 'Pass to Worker' dropdown menu is set to 'Carers Trust'. A yellow information bar at the bottom states 'This request will be sent when you next save.'. At the bottom right, there are 'OK' and 'Cancel' buttons.

- This will re-submit your request to Carers Trust.

### Best Practice

- DO NOT re-submit the form a further time as this will impact on the referral figures for Carers Trust.
- You may use the 're-send request' option if Carers Trust reject your referral due to missing or incorrect details contained within the referral.

## Referrals completed by the **Adult Access Service (AAS) /3 Tier Team**

---

- If the Adult Access Service (AAS) or 3 Tier Team identify suitability for Home First, they will complete a referral on Mosaic and submit the referral to Carers Trust.
- The 'Home First' open step will automatically be sent to the appropriate team folder for the receiving District Team. This will happen instantly.
- When Carers Trust accept, reject, delay etc the referral – the 'requests' will arrive in the appropriate District team incoming folder.
- The Home First Referral step AND subsequent requests may all be 'reassigned' to other workers within the team.

## **Process Exception - Referrals from AAS/3 Tier to Broxtowe Older Adults Team**

- <insert business rule once confirmed>
