

Home First Response Service

Hospital Teams - Quick Reference Guide

Manage referrals for service through Mosaic

This quick reference guide is designed to inform those who are using Mosaic for managing referrals to the Home First Response Service.

Welcome to the Home First Portal

Over the last 6 months, an internet based electronic solution called the 'Home First Portal' has been developed by our internal ICT team and built for the use of our Home First Response Service provider - Carers Trust East Midlands.

The Home First Portal is designed to interact with the *'Home First Response Service – Hospital Discharge and Community'* Mosaic Workflows - exchanging customer information quickly, seamlessly and in accordance with the new GDPR Data Protection policy.

The Home First portal enables NCC staff to submit a Home First referral, receive responses within 2 hours and receive updates from the provider – while the service user is in their service. The Home First portal listens out for referral requests every few minutes and provides real-time updates between the provider and Mosaic.

The information provided by Carers Trust East Midlands is intended to help inform the Community Assessment and Support Plan.

Whilst the Portal has been developed to handle some communication between Carers Trust and Nottinghamshire County Council - it is not intended to replace all communication.

Need to know about The Portal

The Portal polls every 2 minutes and 'listens' for new referral requests.

Some mandatory fields have been built into Notts County Councils referral form for example 'District'. If these fields are not completed by NCC, the form will not submit to the Portal.

Carers Trust East Midlands will reject any referral containing missing or inaccurate details regarding the Service Users District/Address and referrals containing insufficient information to help them quickly determine if they can accept the referral.

**Throughout this guide all areas of
'BEST PRACTICE' are identified like this example**

The Mosaic Workflow

The Home First Response Service Workflow can be accessed from either the 'Contact' or the 'Contact Plus' '**STEP**' as detailed in the workflow maps below;

Contact Step

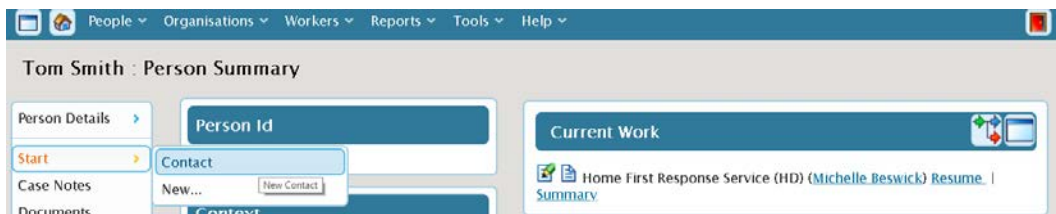

Contact Plus Step

- Before you create the Contact step, please ensure that you have been given consent to share information. This will help avoid inappropriate Contacts being created and stored within Mosaic.
- The Contact Plus must **only** be started if a Contact has already been completed for the Service User and there is a 'Contact Plus' in their incoming work).
- As part of the hospital discharge, please check before completing a referral that the Service User does not already have a long term package of care in place. In these instances, Home First Response Service will not be an appropriate service.
- Please ensure that referrals are submitted to Carers Trust at the time it is identified service is required and not sent as batch of referrals – this assists Carers Trust with understanding ongoing service capacity.

Creating a referral

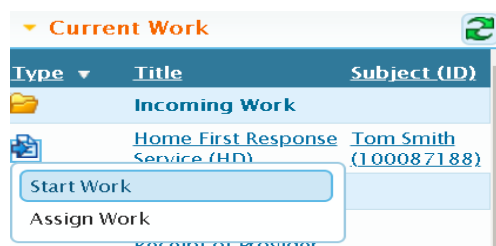

- Select 'Start' and create a new 'Contact'.
- Complete all appropriate information within each section of the Contact Step.

- Then, Select 'Next Actions' Form and using the drop down list and select 'Home First Response Service (HD)'.
- Select 'Assign to Me'. 'Add and Close' the form and then finish the step by selecting the tick icon.

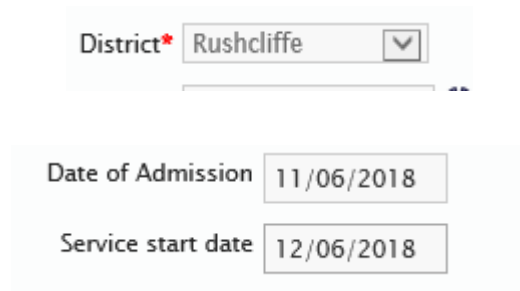

- Next, go to your incoming work folder and 'Start Work' on the Home First Response Service (HD) Step.

- This will enable you to complete the newly created 'Hospital discharge HFRS Request form'.

Creating a referral - Continued

- Complete the Hospital Discharge Home First Request form with the relevant information.
- **Please pay particular attention to the following key questions -**

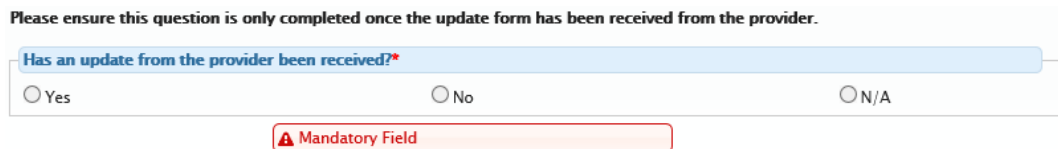

District* Rushcliffe

Date of Admission 11/06/2018

Service start date 12/06/2018

- If these questions are not completed, your referral will not submit to the Portal.

Please ensure this question is only completed once the update form has been received from the provider.

Has an update from the provider been received?*

☐ Yes ☐ No ☐ N/A

Mandatory Field

- The above question can be left unanswered at this stage as you are going to leave the 'step' open. However, you will need to revisit this question once you have received the '72 hour Provider Update'.
- You will not be able to finish the Home First Hospital Discharge step until the Provider Update task is received from the Provider.

Creating a referral - Continued

- Within the referral form, there are a number of fields where the information has been Pre-populated from the Person summary screen.

Any fields which have the '**Gold**' cogs at the side of them mean that the information can be amended within the form (however if the information recorded on the Person Summary screen is incorrect it is recommended that it is amended)

There are '**guidance notes**' provided with details of the required information to be recorded within the form; these are accessed by '**clicking**' on the icons with the question marks.

The screenshot displays the 'HOSPITAL DISCHARGE Home First Response Form' within a web browser. The form is structured into several sections, each with a header bar. The 'Person Information' section includes fields for Service user name, Date of Birth, Address, District, Home phone number, Mobile telephone number, and CP details. The 'Hospital Details' section includes fields for Hospital, Hospital Street, Hospital Ward, Reason for Admission, Is this response from an out of country hospital?, Date of Admission, Predicted date of discharge, and Actual date of discharge. The 'Next of Kin Details' section includes fields for Title, First Name, Surname, Address, Post Code, and Telephone Number. The 'Consent' section includes a field for Consent to share information. The 'Engagement' section includes fields for Health Needs, Home Circumstances, Mobility / Transport, Approximately how many visits per day will be required?, 24 Hours Required, Risk, and Summary of needs / support required. The 'Completed by' section includes fields for Worker Name, Worker Email, Work Telephone Number, and Work Mobile Telephone Number. The form also includes a 'Next actions' bar at the top and a 'Completed' bar at the bottom.

Submitting your referral to The Portal

- Once the form has been completed and you are ready to submit your request to the Provider, **Click** on the **'Requests'** icon and select the **'Request Type'** of **'Required – refer to provider'**

Select	Request Type	Status (Date)	Assigned To
☒	REQUIRED Refer to Provider		
☐	Acknowledge Provider Rejection		
☐	Acknowledge Receipt of Provider Start Date		
☐	Acknowledge service failed to start		
☐	Acknowledge service start delay		
☐	Acknowledge Update from Provider		

Note

Pass to Worker: -- Please Select --
-- Please Select --
Carer's Trust

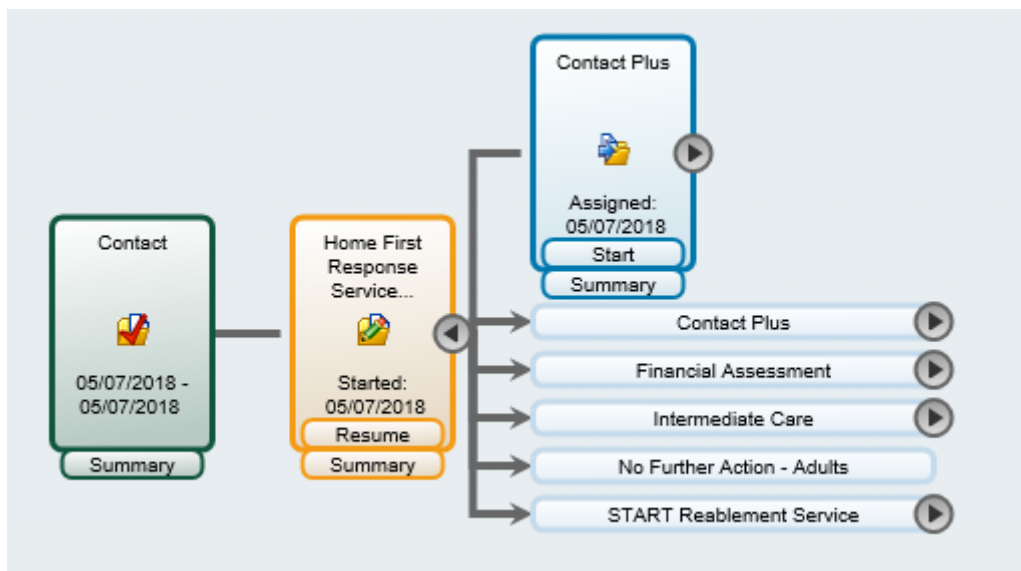

OK Cancel

- Select 'Carer's Trust' at the 'Pass to Worker' box and select 'ok'
- This information will then 'fire' through to the **Portal**.
- Select  icon to Save and close the step.

- Best Practice - This step must remain in your incomplete work folder until you receive further instructions back from the Provider via Mosaic.**
- You are able to 'reassign' the step to another team/team member if you are unable to see the referral through to its conclusion.**

What if an assessment is Required?

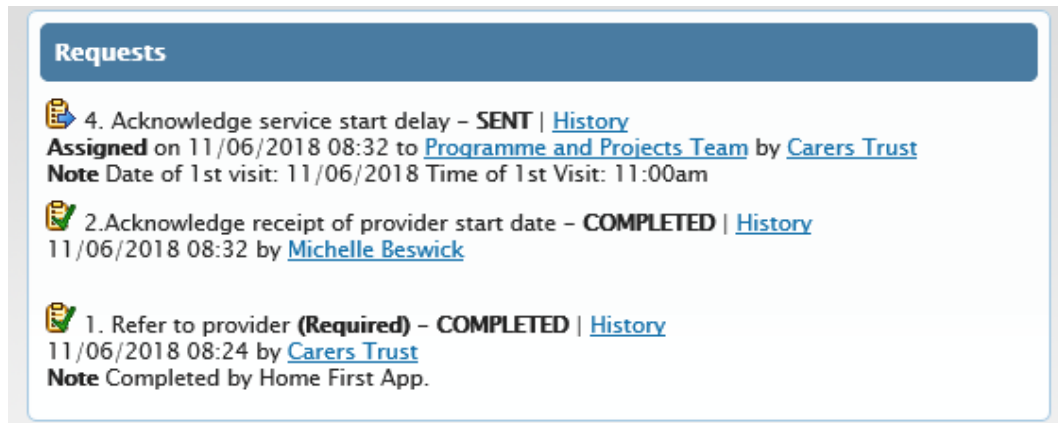

- You will not be able to send a Contact Plus and a Home First Response Service next action from a Contact at the same time. If a Care and Support Assessment is required you can access the Contact Plus from the Home First Response Service step and how you begin this will depend on when you want to start it.
- If you want to start a CASA at the same time as sending a referral to the Home First service then you will need to select the next action of **Contact plus from the Home First Response Service step and tick the 'Send immediately' box.**
- This will mean that the CASA will run parallel to the Home First Response Service workflow (shown below)

- Once you have selected the 'NEXT ACTION(S)' (and completed the HFRS referral) please ensure you 'CLICK' save using the 'save'  Icon.
- You can also chose a Contact Plus as a next action once the service user has left the service and you are closing the Home First Response Service step.
- You can also chose a Home First Response Service from a Contact Plus step.

I've submitted the referral form – what happens next?

- The HFRS referral can immediately be seen by Carers Trust within the Portal.
- Evidence of this can be seen by clicking on the Requests field where you can see that the provider has received the referral.

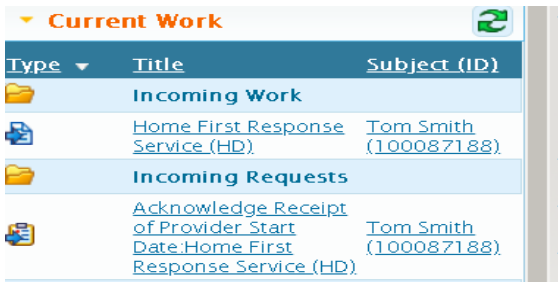

The scenarios below will guide you through the correct screen instructions. There are also links to useful **Video Guides** for each scenario to assist you with navigating the screens.

- Scenario 1 – Provider Accepts Referral and Confirms Start Date (Page 13)
- Scenario 2 – Provider Rejects the Referral (Page 16)
- Scenario 3 – Service Fails to Start (Page 17)
- Scenario 4 – Delay to Service Start Date (Page 19)
- Scenario 5 – No Capacity to Start – Try again later (Page 21)

Scenario 1 – Provider Accepts Referral & Confirms Start Date

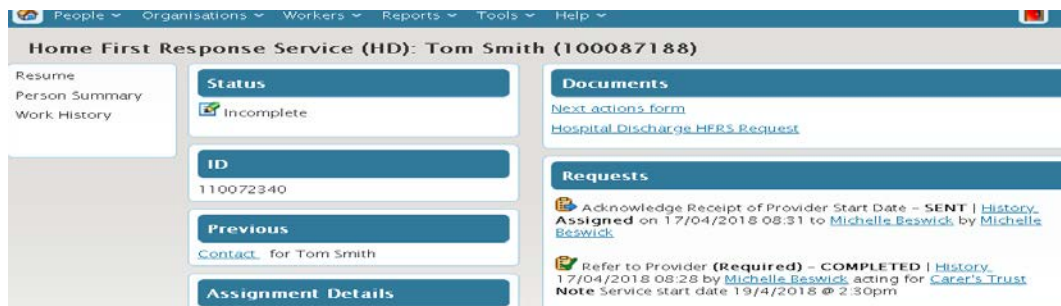

- The provider will confirm **acceptance into service** within 2 hours of receipt of the referral.
- Within your 'teams incoming work folder' there will be a highlighted incoming request called 'Acknowledge Receipt of Provider Start Date Home First Response Services (HD)'.
- Select the 'Request' and 'resume' work.

Type	Title	Subject (ID)
Folder icon	Incoming Work	
Document icon	Home First Response Service (HD)	Tom Smith (100087188)
Folder icon	Incoming Requests	
Document icon	Acknowledge Receipt of Provider Start Date: Home First Response Service (HD)	Tom Smith (100087188)

- Requests can be reassigned to other workers or Teams depending on your 'worker role permissions'.

- Details of the start date and time will be included within the notes fields of the referral.

Requests
Acknowledge Receipt of Provider Start Date – SENT | [History](#)
Assigned on 17/04/2018 08:31 to [Michelle Beswick](#) by [Michelle Beswick](#)
Refer to Provider (Required) – COMPLETED | [History](#)
17/04/2018 08:28 by [Michelle Beswick](#) acting for [Carer's Trust](#)
Note Service start date 19/4/2018 @ 2:30pm

- Select the 'requests'  icon and 'Acknowledge Receipt of Provider Start Date'. Select the 'Completed' radio button to acknowledge the request.
- Best Practice – When acknowledging requests, you must always select the 'completed' radio button as shown in the example below.

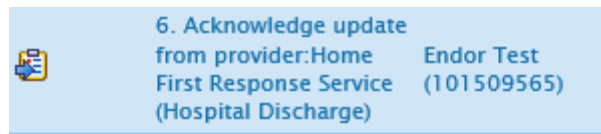

Status

☐ Sent ☐ Withdrawn ☒ Completed ☐ Returned

- Select the  icon to save and close the request.

The Provider Update Form

- The form provides a platform for the Provider to share detailed information and/or updates 72 hours after delivery of the service.
- The form content will automatically be populated with information from the provider and appear in both a 'request' and 'pull through' to the HFRS Community Step.
- A request of 'acknowledge Provider Update' will go into the team incoming requests folder as per the image below.

- Next, select the requests icon  and 'resume work'. This will allow you to 'acknowledge receipt of the Provider Update form' by selecting the 'following request'.

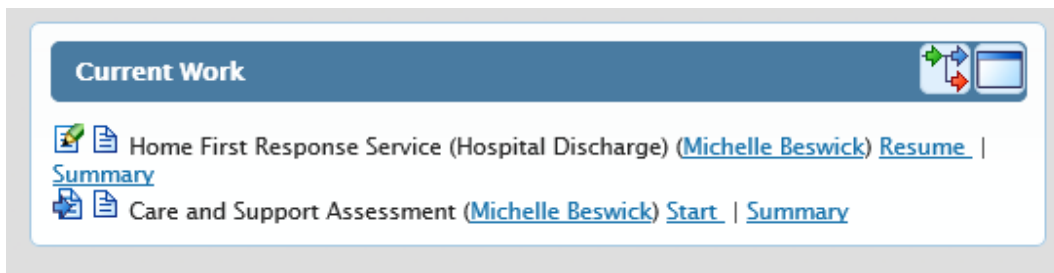

- You must then acknowledge the request by selecting the 'completed' field and the pressing OK.

A screenshot of a web form titled "Sent Request". It displays "Request Id: 1198117" and "Request Type: 6. Acknowledge update from provider". A yellow banner states: "You may Complete, Withdraw or Return the request, change the Note or Reassign to another party." Below is a "Status" section with radio buttons for "Sent", "Withdrawn", "Completed" (which is selected), and "Returned". There is a "Note" text area. At the bottom is a "Status History" table with columns "DateTime", "Action", "Worker/Team", and "Note". "OK" and "Cancel" buttons are at the bottom right.

- This will complete the action needed with the request allowing you to then close down the request by selecting the  icon.

The Provider Update Form - Continued

- Find the HF Hospital Discharge step in your incomplete work folder, 'resume' work and read the information contained within the Update Form.

- Prior to finishing the HF step, there is a mandatory question within the 'Hospital Discharge HFRS form' which needs to be completed.
- You will not be able to finish the step without confirming that 'an update from the provider has been received' – the question is show below;**

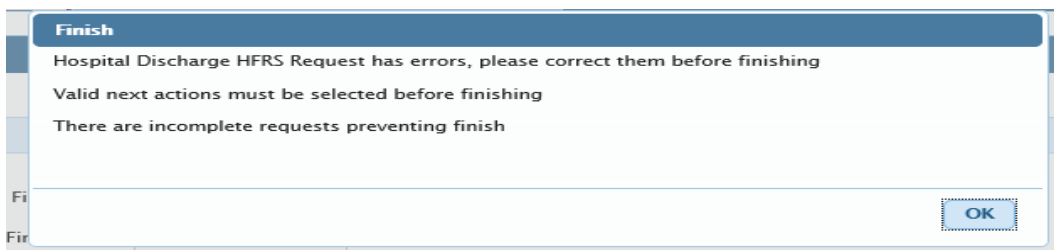

Please ensure this question is only completed once the update form has been received from the provider.

Has an update from the provider been received?*

☐ Yes ☐ No ☐ N/A

 Mandatory Field

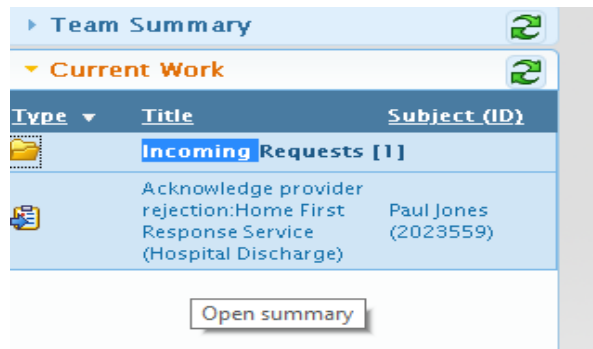

- Please note, if there any other mandatory fields that have not been completed, you will receive the following error message;

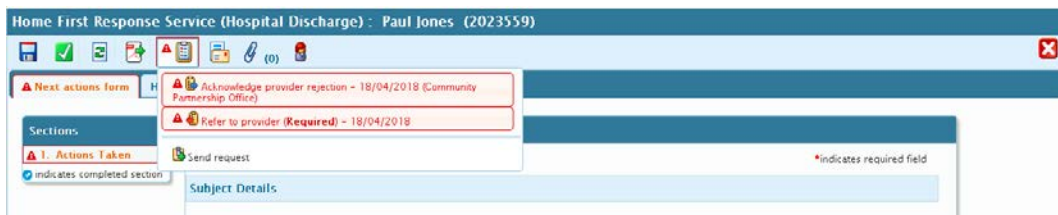

- Next, if the service has completed and there is no longer a need for Reablement and/or long term support you will need to go to 'Next Actions' to complete the Step i.e. 'NFA, Contact Plus etc'.

Scenario 2 – Provider Rejects the Referral

- Refer to your team 'incoming request' folder and search for the request for the Service User.
- Select 'Acknowledge Provider Rejection'

- 'Resume' work on the request and select the 'requests'  icon
- This will allow you to 'acknowledge provider rejection'.

- You will now need to go to you incoming work folder and find the 'Home First Hospital Discharge' step to complete to end the process or send to a new service.

Scenario 2 – Provider Rejects the Referral

- 'Resume' work on the step and return to the 'Hospital Discharge HFRS' request form.
- You will need to select 'yes' to the following question to enable you to finish the Step.

Please ensure this question is only completed once the update form has been received from the provider.

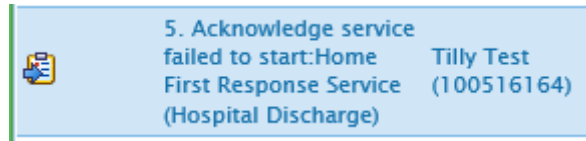

- You may then go the 'next actions' tab to finalise action to the step i.e. NFA or 'Contact Plus' etc.

Best Practice

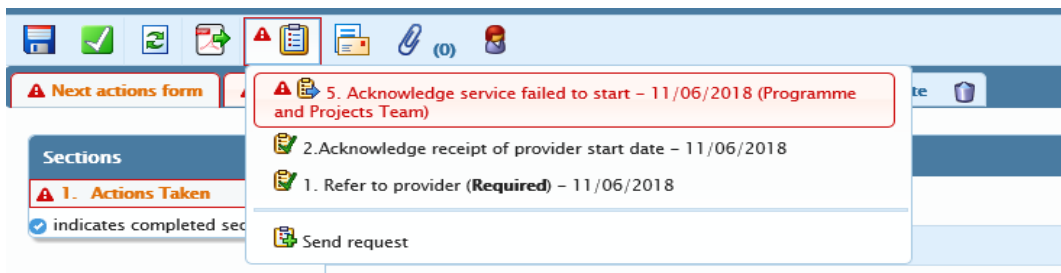

If Carers Trust have rejected your referral due to missing start date of service or incorrect District – please go to page 22 of the guide for guidance on how to 'resend the referral'.

Scenario 3 – Failed Service Start

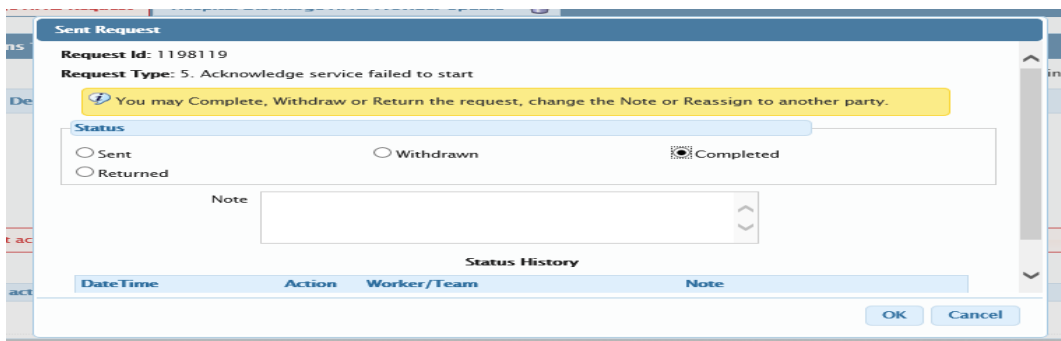

- This scenario covers examples such as deterioration of health, SU declines service, unsafe discharge etc.
- In your 'team incoming requests work' folder Select the SU record and 'resume' work.

- Select the 'requests' icon  and you will need to 'Acknowledge the service failed to start' – see below.

- Select 'completed' to acknowledge the request and then press ok.

Scenario 3 – Failed Service Start - Continued

- You will now need to go to you incoming work folder and find the 'Home First Hospital Discharge' step.
- Return to the referral form and complete the following question to enable you to 'finish' the step;

Please ensure this question is only completed once the update form has been received from the provider.

Has an update from the provider been received?*

☐ Yes

☐ No

☐ N/A

 Mandatory Field

- You will then need to finish the step by selecting the appropriate action.

Scenario 4 – Delay to Service Start Date

- This example covers scenarios such as where there is a delay to hospital discharge.
- If the Provider needs to advise the worker that there will be a short delay to the service start date then they will send a request to your teams 'incoming work folder'.
They may do this once in 48 hours.
- Select 'Acknowledge Service Start Delay for Home First Response'.
- Within the 'requests' area, you will find a note from Carers Trust giving details of the delay.

- 'Resume' work from the request and select the 'requests' icon.
- You will need to 'acknowledge service start delay' by clicking the 'completed' radio button as described in the previous 2 scenarios.

Scenario 4 – Delay to Service Start Date - Continued

- Select 'Refer to Provider (required)

Home First Response Service (HD) : Sarah Smith (2043820)

Next actions form

Acknowledge service start delay - 17/04/2018

Refer to Provider (Required) - 17/04/2018

Sections

1. Actions Taken

Send request

*Indicates required field

Subject Details

- This will display a dialogue box with an option to enable you 'send again' to the Provider.

Returned Request

Request Id : 1084535

Request Type : Refer to Provider (Required)

You may send this request again.

DateTime	Action	Worker/Team	Note
17/04/2018 13:18	Returned by	Michelle Beswick acting for Carer's Trust	Delay to date of hospital discharge.
17/04/2018 13:14	Sent to	Carer's Trust	Requesting start date of 18/4/2018

Send Again OK

- A further dialogue box will appear enabling you include a note to the Provider. Press 'ok' and the referral will re-send immediately.

Resend Request

Request Type REQUIRED Refer to Provider

Note Delay to date of hospital discharge.

Pass to Worker Carer's Trust

This request will be sent when you next save.

OK Cancel

- When the Provider confirms acceptance of the referral – follow the instructions at Scenario 1 Page for how to complete the referral.

Scenario 5 – Rejection - No Capacity to Start – Try again later.

- Within your incoming team folder, select the request and read the note provided by Carers Trust – this is contained in the 'Requests' field.

Programme and Projects Team		
Team Summary		
Current Work		
	(Community)	
	6. Acknowledge update from provider: Home First Response Service (Hospital Discharge)	Tilly Test (100516164)
	3. Acknowledge provider rejection: Home First Response Service (Community)	Beeston Test- Reject (101509586)
	3. Acknowledge provider rejection: Home First Response Service (Community)	Beeston Test - Accept (101509585)
	3. Acknowledge provider rejection: Home First Response Service (Hospital Discharge)	Omc Test- Reject (101509589)
	2. Acknowledge receipt of provider start date: Home First Response Service (Community)	Beeston Test- Reject (101509586)
	3. Acknowledge provider rejection: Home First Response Service (Hospital Discharge)	Endor Test (101509565)

- The referral may only be rejected due to lack of capacity once by Carers Trust.
- If there is a further delay then the step must be ended by selecting 'No Further Action' on the 'Next Actions' tab.
- You will need to create a new Contact to recommence the service.

- Here is the Rejection note ;

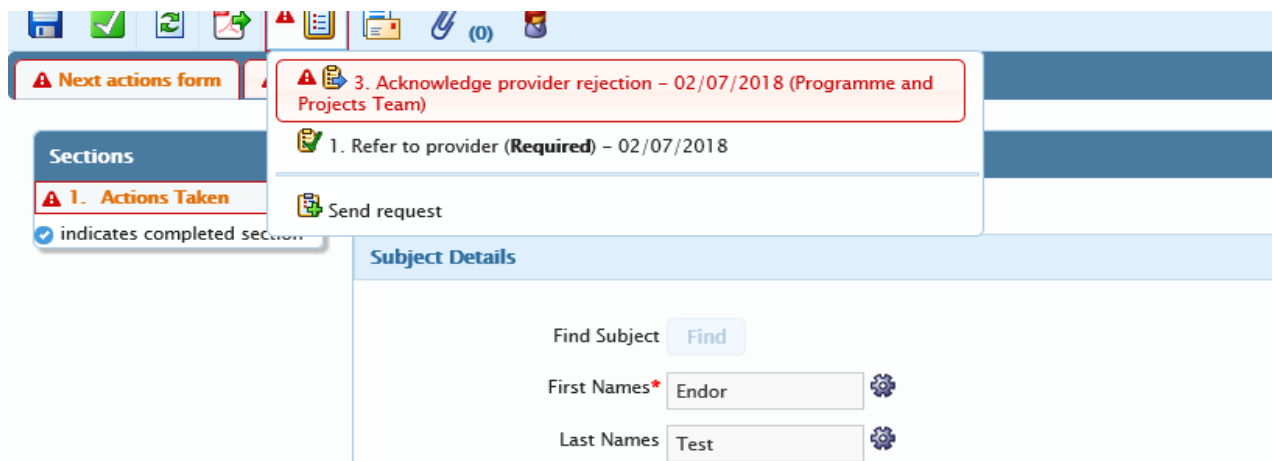

Requests

 3. Acknowledge provider rejection - **SENT** | [History](#)
Assigned on 02/07/2018 11:16 to [Programme and Projects Team](#) by [Carers Trust](#)
Note Refusal reason: Try again within 24 hours Notes: please try again at 10am tomorrow

 1. Refer to provider (**Required**) - **COMPLETED** | [History](#)
02/07/2018 11:15 by [Carers Trust](#)
Note Completed by Home First App.

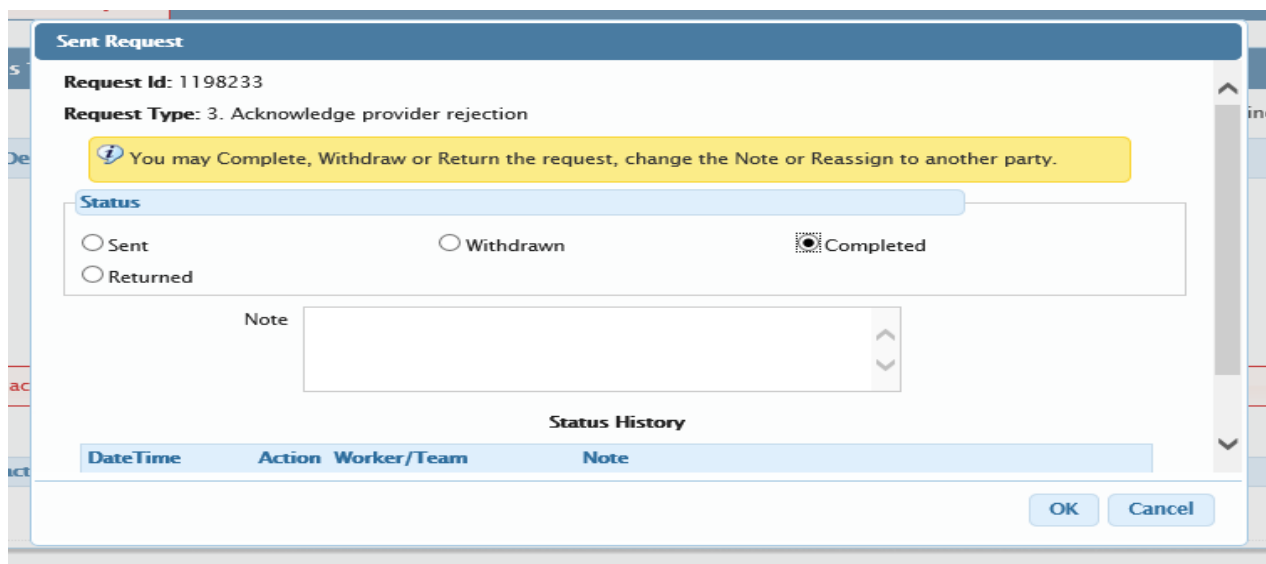

Scenario 5 – Rejection - No Capacity to Start – Try again later.

- Go to the requests icon   and you will need to 'acknowledge the provider rejection'.

The screenshot shows a software interface with a top toolbar containing various icons. Below the toolbar, there is a 'Next actions form' section with a red warning icon and a clipboard icon. The form lists three actions: '3. Acknowledge provider rejection - 02/07/2018 (Programme and Projects Team)', '1. Refer to provider (Required) - 02/07/2018', and 'Send request'. To the left of the form, there is a 'Sections' sidebar with '1. Actions Taken' selected. Below the sidebar, there is a 'Subject Details' section with a 'Find Subject' button and input fields for 'First Names' (Endor) and 'Last Names' (Test).

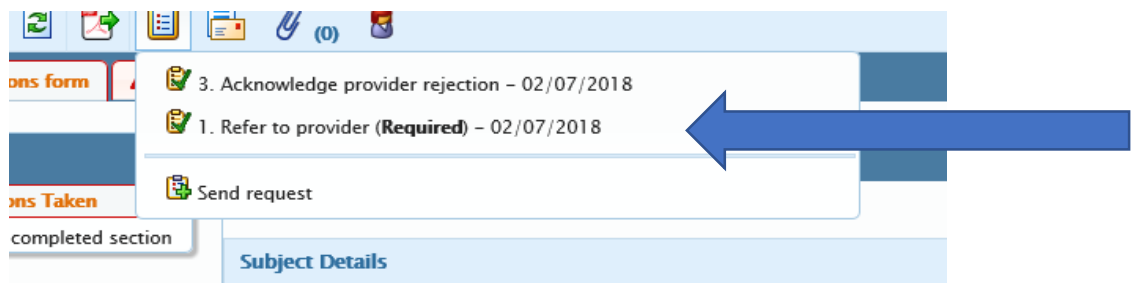

- Remember to only select the 'complete button – to acknowledge the provider rejection.
- Next – save and close the request.

The screenshot shows a 'Sent Request' dialog box. It displays the 'Request Id: 1198233' and 'Request Type: 3. Acknowledge provider rejection'. A yellow information box states: 'You may Complete, Withdraw or Return the request, change the Note or Reassign to another party.' Below this, there is a 'Status' section with three radio buttons: 'Sent', 'Withdrawn', and 'Completed' (which is selected). There is also a 'Note' text area. At the bottom, there is a 'Status History' table with columns 'DateTime', 'Action', 'Worker/Team', and 'Note'. The dialog box has 'OK' and 'Cancel' buttons at the bottom right.

Scenario 5 – Rejection - No Capacity to Start – Try again later.

- When you are ready to re-submit the request to Carers Trust – ‘resume’ work on the ‘Home First Response (Hospital Discharge)’ step – this will be in your Current work folder.
- Select the requests icon and select ‘1. Refer to provider (required)’

- Select ‘Send Again’.

Completed Request

Request Id : 1198229

Request Type : 1. Refer to provider (Required)

You may send this request again.

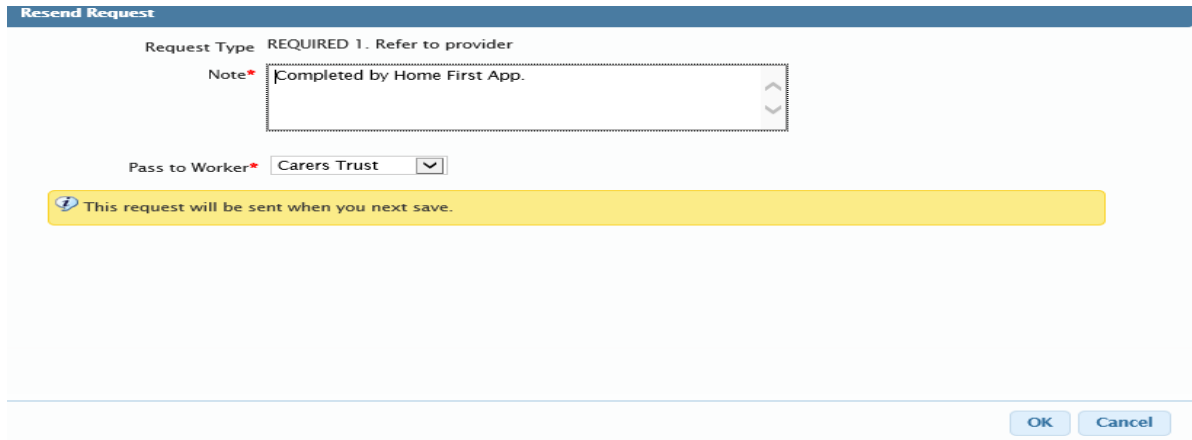

Status History

DateTime	Action	Worker/Team	Note
02/07/2018 08:56	Completed by	Carers Trust	Completed by Home First App.
02/07/2018 08:55	Sent to	Carers Trust	test

Send Again **OK**

Scenario 5 – Rejection - No Capacity to Start – Try again later - Continued

- Select 'Ok'

The screenshot shows a 'Resend Request' dialog box with a blue header. Inside, the 'Request Type' is set to 'REQUIRED 1. Refer to provider'. The 'Note' field contains the text 'Completed by Home First App.'. The 'Pass to Worker' dropdown menu is set to 'Carers Trust'. A yellow information bar at the bottom states 'This request will be sent when you next save.'. At the bottom right, there are 'OK' and 'Cancel' buttons.

- This will re-submit your request to Carers Trust.

Best Practice

- DO NOT re-submit the form a further time as this will impact on the referral figures for Carers Trust.
- You may use the 're-send request' option if Carers Trust reject your referral due to missing or incorrect details contained within the referral.

For more Information or Support

Please contact Karen Peters – Project Manager, Electronic Solutions Manager on **0115 9772926**

Technical Support is available by calling NCC Community Partnership Office (CPO) number on **0115 8040693** and asking for Adam Fraser.
