Table of Icons used in Mosaic

	Homepage and Workviews
	The main part of the Workview organises cases using panes:
	- there are three Workview options : Full, Narrow and Closed : each show slightly different options regarding panes, icons and/or the menu bar. To change your Workview, click on the Workview icon and then choose which view you want.
	There are panes for Allocations, Recently Viewed and Current Work – (Full and Narrow Workview only) Click on the pane name to expand it; Click on it again to collapse it. Expanding one pane automatically collapses the others.
	You can update the list by clicking on the 'refresh' icon for each pane.
	If you have the relevant permissions you can see the Team Workview by clicking on the 'Show team workview' icon. The Team Workview allows you to organize the incoming or unfinished work that has been sent to a team but not yet assigned to a specific worker.
	To act as another worker that you are setup / authorised to do so for, click on the 'Show workers available to act for' icon. A list of workers that you can act for is displayed.
	The 'Quick Start' buttons / icons are only available in Full Workview
	To assign numerous pieces of Current Work, you can use the 'Bulk assign work' icon – available in Full Workview.
	The home icon returns you to this Home Page view from wherever you are in Mosaic.
	Log Out

	Types of Work Items
	Incomplete item
	Incoming with standard priority 2
	Incoming with priority 1 flag
	Incomplete step – requests ALL complete e.g. authorisation
	Incomplete step – request returned
	Incomplete step – some of the sent requests have replies, but not all
	Incomplete step – request sent
	Incoming request
	Incoming notification
	Future work
	Alert
	Scheduled Visit
	Occurrence of a Payment Cycle
	Working with workflow
	Workflow Map
	View Work History List
	Save
	Finish
	Refresh current form (this will re-run information and calculations in the currently visible form)
	Output current document i.e. create a PDF
	Starts checking the spelling and grammar of the text in all fields on the current section in the form. Errors are shown in a new window and can be corrected or ignored.

Working with Forms	
	Once either an optional request has been chosen and a worker named, or a MANDATORY (REQUIRED) request chosen and worker named and sent via the 'Save' above, you can chose another by Clicking on the requests icon and a further option of 'Send request' appears which allows you to choose a further request and again, save as per above.
	When checking, you will then notice all sent requests listed. You can choose as many as appropriate / required.
 	You can check the status of requests either via the Requests icon and the list (outstanding remain in red, completed show with green tick) Or via the 'Send request' link to see all request options Which will show which are completed and the dates, and which are outstanding and the dates requested.
	Provides access to optional forms associated with the item
	The number next to the icon indicates how many attachments there are. Click this icon to display a list of attachments
	Allows you to copy this item from another person
	Change focus to the Mosaic window and shows the subject's summary
	Closes the workflow item. You are prompted to Save or Cancel the changes made since last saving.
	A workflow item can have several required and several optional forms as shown in the figure below. You can only delete the optional forms, which you do by clicking on the icon next to the tab.
	Updated forms are available

	Working with Tables in Forms
	You can edit an existing item by clicking on the 'pencil' icon
	You can delete an existing item by clicking on the 'Dustbin' icon.
	When there are several rows you can click the icon to move a row up and so reorder table.
